## CURRENT ACCOUNT OF THE BALANCE OF PAYMENTS

The current account developed as negative and totaled US\$ 451.7 million, or 11.5 percent of GDP.

**Chart 1: Current Account**

*in percent of GDP*

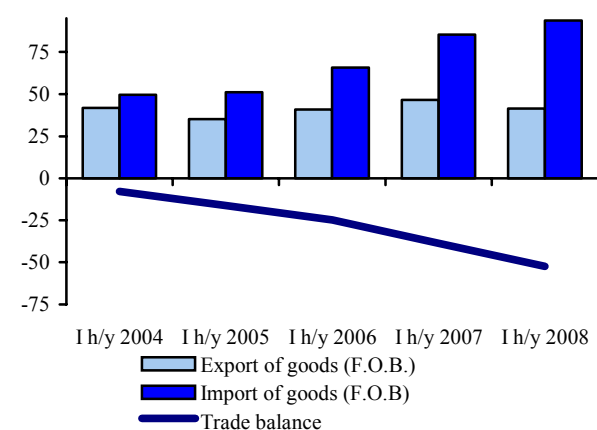

### Trade Balance

The volume of external trade of the Kyrgyz Republic grew in the first half of 2008 by 41.5 percent compared with the similar period of 2007 and amounted to US\$ 2 435.3 million.

**Chart 2: KR Trade Balance**

*in percent of GDP*

Rates of growth of import were higher than those of exports and resulted in the negative trade balance to the tune of US\$ 943.5 million, being almost twice higher than the trade gap in the first half of 2007.

**Export of goods** at FOB prices compared with the first half of 2007 increased by 22.8 percent and in

value terms amounted to US\$ 745.9 million. Growth was noted in the accounting period in re-export of energy resources (2.6 times compared with the first half of 2007) to CIS countries and in export of gold (by 56.2 percent) to non-CIS countries.

Growth was registered in the period under review with regard to all of the items of the functional distribution of export. The Kyrgyz Republic exports to external markets, mainly, intermediate goods (their share was 43.8 percent of the total volume of exports of goods), consumer goods (23.5 percent) and energy resources (22.5 percent).

**Table 1: Export of goods**  
(in millions of US dollars)

	1 h/y 04	1 h/y 05	1 h/y 06	1 h/y 07	1 h/y 08
Export (f. o. b)	342,9	329,2	430,6	607,2	745,9
Growth rate (in percent)	44,9	-4,0	30,8	41,0	22,8

In the first half of 2008, shares of non-CIS and CIS countries in the geographic structure of export made 50.2 and 49.8 percent, accordingly.

The volume of exports to non-CIS countries amounted to US\$ 323.7 million, being by 17.3 percent more than the same indicator for the first half of 2007. The largest share of export was directed to such countries, as Switzerland (44.0 percent of the total volume of exports to non-CIS countries), UAE (11.7 percent), Afghanistan (10.6 percent), and China (7.5 percent). Export deliveries to Switzerland increased in the accounting period compared with the first half of 2007 by 32.2 percent and amounted to US\$ 142.3 million. The commodity composition of export to this country is represented by gold, whose deliveries in terms of value grew because of growth of the world price of this precious metal. The distinctive feature of the period under review was the resumption of export of

gold to the UAE, which was exported in 2005 last time. In the accounting period, the volume of exports of gold to the UAE amounted to US\$ 26.9 million and provided for 71.2 percent of exports to this country. Furthermore, growth of re-export of jet fuel to the UAE was registered in the period under review. Export of goods to Afghanistan decreased by 60.3 percent and amounted to US\$ 34.4 million as shown by the outcome of the first half of 2008 and it was due to the reduction of the volume of re-export of petroleum products. Export to China increased by 17.4 percent and amounted to US\$ 24.4 million compared with the first half of 2007. In the commodity composition of export to China growth was registered with regard to deliveries of black cattle hides, jet fuel (re-export), and various chemical substances, which offset the reduction in exports of such goods, as aluminum and leather.

Export to CIS countries based on the outcome of the first half of 2008 increased by 38.9 percent and amounted to US\$ 321.2 million. In the period under review, the biggest partners in export transactions among CIS countries were Russia (44.4 percent of the total volume of exports to CIS countries), Kazakhstan (26.1 percent), and Uzbekistan (23.0 percent). Export to Russia in the accounting period was characterized by growth by 39.0 percent and amounted to US\$ 142.7 million. Prevailing in the structure of export to this country were such goods, as apparel and accessories, rolled glass, fresh vegetables and fruits, jet fuel (re-export), and cotton. Export to Kazakhstan in the first half of 2008 decreased by 4.1 percent and amounted to US\$ 83.8 million. This reduction is characterized by basically the decrease in deliveries of energy resources, apparel, and construction materials. Significant growth of the volume of exports to Uzbekistan (3.2 times) is assigned to increased deliveries of petroleum products (re-export).

**Import of goods** at FOB prices in the first half of 2008 amounted to US\$ 1 689.4 million, being by 51.7

percent more than the same indicator of the first half of 2007.

**Table 2: Import of goods**  
(in millions of US dollars)

	1 h/y 04	1 h/y 05	1 h/y 06	1 h/y 07	1 h/y 08
Import (f. o. b)	407,2	479,8	691,4	1113,5	1689,4
Growth rate (in percent)	36,1	17,8	44,1	61,0	51,7

The functional structure of import is characterized by growth in all of the items. The basic share of import fell on consumer goods (33.8 percent of the total volume of imports of goods) and energy resources (30.6 percent).

According to the geographic structure, the main partners in import transactions were CIS countries, whose share was 55.6 percent of the total volume of imports. The share of non-CIS countries made 44.4 percent, accordingly.

The 85.3 percent of import from CIS countries was provided by commodities delivered from Russia and Kazakhstan. Petroleum products, machinery and transportation equipment, foodstuffs, ferrous metal products, chemicals and similar products were mainly imported from the mentioned countries in the accounting period.

In the period under review, import from non-CIS countries increased 2.1 times and reached the level of US\$ 802.2 million. China (34.6 percent of the total volume of imports from non-CIS countries), Germany (17.2 percent), Japan (9.6 percent) and the USA (7.3 percent) were the biggest importers from this group of countries. Import from China increased in the accounting period 2.1 times and totaled US\$277.4 million in value terms. From these countries, the increase was chiefly registered in deliveries of textile cloth, various manual and computerized tools, machinery and transportation, and clothes and footwear. The factor of significant growth of import

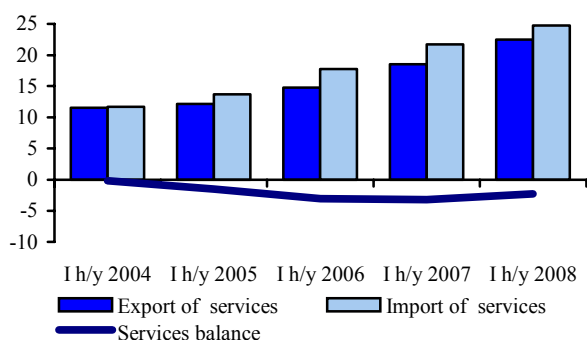

from Germany (6.1 times compared with the first half of 2007) and Japan (16.3 times) was that of improved accounting of shuttle traders operations. Import from the USA in the accounting period increased by 19.1 percent and amounted to US\$ 58.8 million. The commodity structure of import from the USA was represented by such goods, as poultry meat, medicaments and vehicles.

### Balance of International Services

The balance of services developed for the first half of 2008 as negative of US\$ 40.8 million. Thus, the deficit balance of international services decreased compared with the similar period of the past year by 1.7 percent. At the same time, export of services increased by 67.6 percent, while import increased by 57.5 percent compared with the first half of 2007.

**Chart 3: Balance of International services**  
in percent of GDP

Based on the outcome of 6 months of 2008, the total volume of services rendered to nonresidents amounted to US\$ 405.5 million. As in the past periods, the significant part of export of services falls on the item “Travels” (42.2 percent of national export), “Transportation Services” (23.6) and “Business Services” (10.3). The 3.5 times growth of export should be pointed out in the item “Other Services”, as a result, their share in national export was 11.5 percent.

The volume of imports of services for the reporting period amounted to US\$ 446.3 million. The largest

share in imports is still that of the items “Transportation Services” (47.7 percent), “Travels” (29.0) and “Business Services” (9.9). Alongside with this, there was significant growth of import of the item “Construction Services”: 6.6 times compared with the base period.

### Income

Based on the outcome of the first half of 2008, the balance of income was negative of US\$ 66.4 million, exceeding by 72.7 percent the comparable indicator of 2007.

Growth of the negative balance in this item results from the increase in expenses of residents in the item “Income from Direct Investment”. For instance, compared with the first half of 2007, the negative balance in the item “Income from Direct Investment” increased by 64.4 percent, thereby amounting to US\$ 51.4 million. The increase in payments on reinvested income and growth of interest payments on credits given by foreign direct investors had their most significant impact on this change.

The item “Income from Other Investment” developed with the deficit of US\$ 4.2 million against its surplus of US\$ 3.3 million in the similar period of 2007. Growth of the negative balance in this indicator was conditioned by interest payments on foreign loans.

In the first half of 2008 the balance in the item «Compensation of Employees» developed as negative of US\$ 11.1 million. At the same time, compared with the similar period of 2007, this indicator increased by 5.1 percent.

### Current Transfers

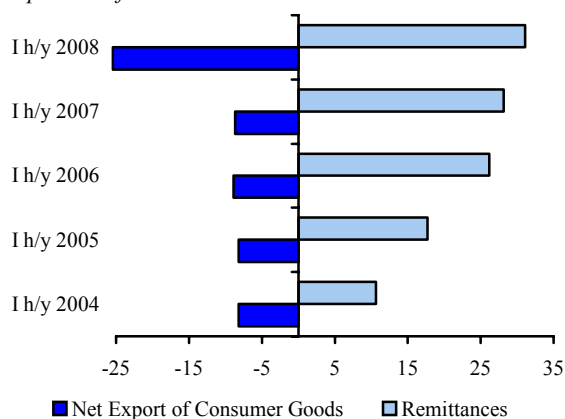

Traditionally, having exceeded 1.5 times the similar past year indicator, the positive balance of current transfers amounted to US\$ 598.9 million for the first half of 2008. This growth was due to the increase in the inflow of remittances of people working abroad - their share is the largest one in the structure of transfers. This being the case, it should be noted that the balance of remittances covers net export of

consumer goods, which in turn developed with the deficit of US\$ 458.9 million.

The net inflow of official transfers decreased compared with the similar period of the past year by 25.8 percent and amounted to US\$ 9.2 million, which fact was mainly connected with decline in the share of commodity grants to the public sector.

**Chart 4: Balance of remittances and Net Export of Consumer Goods**

*in percent of GDP*

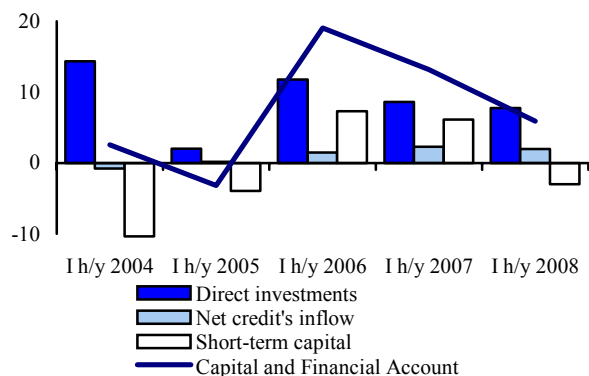

### Capital and Financial Accounts

Based on the outcome of the first half of 2008, the balance on **the capital and financial account** was positive of US\$ 106.0 million, being less than the similar indicator of the first half of 2007 by 38.3 percent.

**Chart 5: Capital and Financial Account**

*in percent of GDP*

Having contracted by 68.3 percent compared with the comparable indicator of the first half of 2007, the negative balance on the **capital account** in the accounting period amounted to US\$ 16.0 million, being mainly determined by the reduction of the net outflow on the account “Transfers of Migrants”.

The positive balance of the **financial account** decreased in the accounting period by 45.1 percent compared with the first half of 2007 and developed to the tune of US\$ 122.0 million.

The net inflow on **foreign direct investments** increased by 24.3 percent and totaled US\$ 139.5 million. The net inflow of capital in this balance of payments component was registered with regard to all of the items. The basic share in the structure of foreign direct investments is that of the item “Other Capital”, which made 63.9 percent of the inflow of direct investments. First thing, growth in the item “Other Capital” is connected with the increase in the inflow of credit resources from foreign direct investment.

The net outflow of capital on **foreign portfolio investment** in the first half of 2008 increased 1.5 times and amounted to US\$ 20.3 million. This growth results from the increase in investments of Kyrgyz residents into foreign securities and the absence of investment injections into Kyrgyz securities.

The surplus in “**Other Investment**” in the period under review decreased by US\$ 120.5 million and amounted to US\$ 2.8 million. This change is primarily connected with the sharp spur in foreign assets of residents of the Kyrgyz Republic in this item against the background of decrease in their foreign liabilities.

Growth of assets was due to mainly the increase in foreign assets of commercial banks, entailing thus the corresponding outflow of capital in this item.

In this regard, the 19.5 percent reduction in liabilities was observed in the accounting period in the item “Other Investment”, with the basic reason being that

of the reduction in liabilities of Kyrgyz banks to nonresidents.

For the first half of 2008 the item “**Errors and Omissions**” developed with the positive balance in the amount of US\$ 328.0 million, having thus grown 2.7 times compared with the similar indicator in the first half of 2007. Growth of the positive balance in this item testifies to increasing under-accounting of

transactions connected with the inflow of capital to the republic.

Thus, based on the outcome of the first half of 2008, the **balance of payments** turned out to be negative of US\$ 17.7 million. In this regard, the volume of gross international reserves amounted to US\$ 1 231.3 million as of the end of the reporting period thereby covering 3.0 months of import of goods и services.

**Table II.1: Sources of Information Used by the National Bank  
for Compilation of the Balance of Payments of the Kyrgyz Republic**

Items of the Balance of Payments	Sources of information	Contents of information
<b>Current account</b>		
<b>Commodities</b>		
Export of goods (F.O.B.)		
export	NSC	
commodities purchased in ports	NSC	
nonmonetary gold	NSC	
Import of goods (F.O.B.)		
import (C.I.F.)	NSC	
value adjustment	NSC	NSC estimate of the share of transport and insurance services in import at C.I.F. prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises according to form 1-services
<b>Services</b>		
Transportation services	NSC, CB	estimates NSC of the share of transportation costs in import at C.I.F. on the basis of inspection of the enterprises
Travels	NSC	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	MTC	
Construction	CB	
Insurance services	NSC, enterprises, CB	NBKR assessment by the share of costs in import at C.I.F. prices on the basis of surveys of enterprises; data from enterprises and banking statistics
Financial services	NBKR, CB	
Computer and information services	CB	
Government services	MFA, CB	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR

**Table II.1: (continued)**

<b>Items of the Balance of Payments</b>	<b>Sources of information</b>	<b>Contents of information</b>
Business services	NSC, CB, enterprises	data on other business technical services, collected from enterprises according to reporting form 8VES-services; data from some large enterprises
including technical assistance	IMF, MF	the estimated data
Other services	NSC, CB	data on other services collected from enterprises according to reporting form 8 VES-services; data on other services from banking statistics
<b>Income</b>		
Employee compensation	NSC, CB, enterprises	
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	
Other investment income		
Interest on loans		
Monetary authorities	NBKR	
General government	MF, NBKR, enterprises	
Banks	CB	
Other sectors	Enterprises	
Other investment income	NBKR, CB, enterprises	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB and enterprises from assets abroad
<b>Current transfers</b>		
Humanitarian aid	NSC, enterprises	data on rendered humanitarian aid based on SCI data
Technical assistance	IMF	the estimated data
Other grants	NBKR	
Contributions to international organizations	MF	
Workers' remittances	MT&C, CB	

**Table II.1: (continued)**

<b>Items of the Balance of Payments</b>	<b>Sources of information</b>	<b>Contents of information</b>
<b>Current and financial account</b>		
<b>Capital transfers</b>		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Debt forgiveness	Enterprises, MF	
<b>Direct investment</b>		
Abroad	CB, enterprises	
To the Kyrgyz Republic	NSC, CB, enterprises	data on direct investment collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment into the banking sector; data of some large joint ventures
<b>Portfolio investment</b>		
Promissory notes	NBKR, CB, SCSM	
<b>Financial derivative</b>		
	Enterprises	
<b>Other investment</b>
