

Foreign Exchange Market

(June 2016)

In the reporting period, the exchange rate of the US dollar slightly decreased from KGS 68.2986 to KGS 67.4860 per USD (-1.2 percent) compared to the previous month. At the same time, KGS strengthened due to an increase in the volumes of currency inflow to the country through the money transfer systems and the US dollars received from conversion operations carried out by the banks.

The total turnover of interbank currency trading increased by 2.2 times as compared to the previous month and amounted to USD 58.3 million. The reason was an increase in the volume interventions performed by the National Bank by purchasing foreign currency to the amount of USD 29.5 million. The volume of transactions conducted between the commercial banks increased by 15.9 percent, to USD 28.9 million.

The total volume of transactions on the purchase and sale of foreign currency increased as compared with the previous month by 33.5 percent, to KGS 36.8 billion. The reason was the significant increase in the volume of non-cash transactions conducted by the commercial banks to KGS 5.0 billion (+2.1 times) and an increase in business activity to KGS 17.8 billion (+17.1 percent) in the segment of cash transactions conducted by the commercial banks, and to KGS 14.0 billion (+40.5 percent) in the segment of cash transactions conducted by the exchange offices.

In the reporting period, the National Bank did not conduct SWAP operations with the commercial banks.

By types of currencies, there was an increase in the volume of transactions. At the same time, the equity ratio of currency in the total volume of transactions was distributed as follows: the share of transactions in USD made 59.1 percent (+0.9 percentage points), the share of transactions in EUR – 1.8 percent (-0.3 percentage point), the share of transactions in RUB – 37.3 percent (-0.2 percentage points), in KZT – 1.8 percent (-0.4 percentage points).
