Balance of Payments of the Kyrgyz Republic

The Balance of Payments of the Kyrgyz Republic is prepared by the National Bank of the Kyrgyz Republic. The periodical describes recent developments in the external sector and contains statistical data on the balance of payments, external trade, international reserves, external debt and an international investment position, as well as a technique and a database to compile the balance of payments. It is published four times a year - in January, May, July, and October. It is published in three languages: Kyrgyz, Russian, and English.

The last data update for this publication: January 20, 2010.

Annotation symbols and notes:

- ... means the absence of data;
- means, that indicators/ratios are equal to 0 (zero) or insignificant;
- is set between years or months (e.g., 1994-1996 or January-June) and means, that all years and months are covered by the shown dates.

Due to rounding, when summing-up, figures might not coincide in the final category.

Due to contingent changes in recording procedures or in historical sources used in this publication adjustments could be made to the earlier published data, and the period of 10 years would be, accordingly, considered as the "open period".

Other publications of the National Bank of the Kyrgyz Republic

Annual Report of the National Bank of the Kyrgyz Republic

This publication is a full report of the National Bank of the Kyrgyz Republic for the previous year. It contains a fill-in on economic development of the republic and a monetary policy, financial statements of the National Bank, general data on the NBKR, and statistical annexes. It is published in three languages: Kyrgyz, Russian, and English.

Bulletin of the National Bank of the Kyrgyz Republic

This information publication contains statistical data on basic macroeconomic indicators and economic sectors of the Kyrgyz Republic. It is published in Kyrgyz, Russian, and English.

Review of Inflation in the Kyrgyz Republic

This periodical contains a description of consumer price changes in the republic and its regions, an analysis of basic inflation factors, informs of decisions of the National Bank of the Kyrgyz Republic in the area of a monetary policy, and gives a forecast of inflation for the forthcoming period. It is published quarterly in Kyrgyz, Russian, and English.

Banking System Development Trends

This publication provides the analysis of the status of the banking system of the Kyrgyz Republic as a financial intermediary, as well as describes a level of stability of the banking system by its components. It is published semiyearly in Kyrgyz, Russian, and English.

Statutory Acts of the National Bank of the Kyrgyz Republic

The goal of the publication "Statutory Acts of the National Bank of the Kyrgyz Republic" is to officially publish the statutory acts of the National Bank to furnish the commercial banks and the public with the normative documents of the National Bank and to promulgate the banking legislation of the Kyrgyz Republic. The assumptive periodicity of the journal is to publish it once a month in Kyrgyz and Russian.

Press Release of the National Bank of the Kyrgyz Republic

The Press Release of the NBKR contains a chronicle of events in the National Bank and the basic data on the financial market. It is published on the weekly basis in Kyrgyz and Russian.

The publications of the National Bank are disseminated in accordance with lists approved with orders of the Chairman of the National Bank of the Kyrgyz Republic and are placed on its Website at the following address:
<http://www.nbkr.kg>.

CURRENT BALANCE OF PAYMENTS STATUS

In January to September 2009 the overall **balance of payments** developed as positive at the rate of US\$ 157.6 million.

The **current account** balance for nine months of 2009 formed negative and was US\$ 17.2 million or 0.5 percent of GDP.

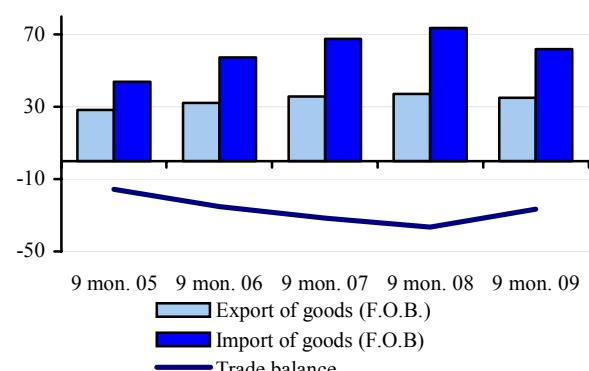

Chart 1: Current Account
in percent of GDP

TRADE BALANCE

A trade gap was US\$ 853.6 million according to the outcome for nine months of 2009, being by 35.7 percent less than a similar parameter for nine months of 2008. The foreign trade turnover of the Kyrgyz Republic was US\$ 3 105.6 million in terms of value in the accounting period, having thus decreased by 22.6 percent compared to this parameter in the similar period of 2008, as a result of the reduction in volumes of both export and import operations.

Chart 2: KR Trade Balance
in percent of GDP

The volume of **exports** of goods at FOB prices, in view of adjustments, for the period from January to September 2009 compared to its volume for the similar period of 2008 decreased by 16.2 percent and was US\$ 1 126.0 million.

Table 1: Export of goods of the Kyrgyz Republic
(in millions of US dollars)

	9 mon. 2005	9 mon. 2006	9 mon. 2007	9 mon. 2008	9 mon. 2009
Export (F.O.B.)	496,8	646,2	944,1	1 342,8	1 126,0
Growth rate (in percent)	-6,3	30,1	46,1	42,2	-16,2

In the functional structure of export (excluding adjustments) in the accounting period the largest share of export fell on the *noncapital goods* and was 37.7 percent of the total volume of exports or US\$ 348.4 million and it is less by 22.5 percent than in the comparable period of 2008. A decrease in export of noncapital goods was observed with regard to such basic positions as artificial cement, whose deliveries was reduced by 98.4 percent and was US\$ 0.7 million, and rolled glass, whose deliveries decreased by 94.4 percent and was US\$ 1.5 million. Export of scrap iron and aluminum was also reduced. The deliveries of gold increased by 4.8 percent in terms of value and were US\$ 284.0 million.

The share of export deliveries of raw material in the total volume of exports was 22.6 percent in the accounting period. Export of raw material increased by 79.9 percent and reached a level of US\$ 208.7 million. In this regard, 78.3 percent of deliveries of raw material resulted from the deliveries of inorganic chemical substances, whose volume increased in the accounting period 2.5 times. Except that, growth was noted in export of tobacco, stone, sand and gravel, and ores of precious metals. Export of cotton in the accounting period decreased by 26.7 percent and was US\$ 7.7 million.

Export of *energy resources* for nine months of 2009 was reduced by 45.3 percent and formed at the level of US\$ 169.4 million, that, first of all, speaks for the

reduction in the volume of re-export of mineral oil to third countries. Export of electricity in the accounting period increased by 27.1 percent and was US\$ 31.0 million.

According to the outcome for nine months of 2009, export of *consumer goods* was 168.3 million, having thus decreased by 30.3 percent compared to its volume in the similar period of 2008. The significant decrease in export of garments and apparel accessories, fruit and nuts, jewels was observed in a commodity composition of this functional category. Except that, the deliveries of milk and dairy produce, as well as incandescent lamps decreased either.

According to the outcome for nine months of 2009, shares of non-CIS and CIS countries in the geographical structure of export (excluding adjustments) were 59.1 and 40.9 percent, accordingly.

Export to the non-CIS countries increased by 0.4 percent, amounting to US\$ 546.0 million in terms of value. According to the outcome for nine months of 2009, the largest partners in export operations were: Switzerland (36.3 percent of the volume of exports to the non-CIS countries), France (27.1 percent), and the United Arab Emirates (17.3 percent). Export to Switzerland was represented by gold, whose volumes in the accounting period were reduced by 19.1 percent due to the reduction in the volume of deliveries. The deliveries to France of inorganic chemical substances influenced growth of export to this country 2.3 times. The volumes of export to the United Arab Emirates, which increased in the accounting period 2.2 times, are represented by the deliveries of gold in the third quarter of 2009. A downswing was observed in the accounting period in export to Latvia (by 98.9 percent compared to this parameter for nine months of 2008) and to Afghanistan (by 64.5 percent) and it was connected with the reduction in re-export of mineral oil to these countries. Export relations with China also showed a downward tendency: the deliveries of hides, leather and wool, metal ores and scrap, mineral oil, as well as chemical substances were reduced. The volume of exports to the USA grew 4.6 times, amounting to US\$ 19.4 million in the accounting period. The increased deliveries to this country were those of inorganic chemical substances.

The export deliveries to the CIS countries were US\$ 377.8 million for nine months of 2009, having thus decreased by 36.8 percent compared to these deliveries in the similar period of 2008. The principal partner countries in the accounting period were: Russia (36.2 percent of the volume of exports to the CIS countries), Uzbekistan (34.4 percent) and Kazakhstan (24.0 percent). Export to Russia was reduced by 42.4 percent and was at the level of US\$ 136.7 million. The basic decrease in export to Russia was observed with regard to the consumer goods (garments and apparel accessories, vegetables and fruit, and the incandescent lamps), the noncapital goods (rolled glass and glass with a grinding finish) and the energy resources (re-export of mineral oil). Export of goods to Uzbekistan was reduced by 25.2 percent and totaled US\$ 130.0 million. The given tendency speaks for, mainly, the reduction in the volume of re-export of mineral oil. Export of goods to Kazakhstan in the accounting period decreased by 41.2 percent and totaled US\$ 90.7 million due to, basically, the reduction in the deliveries of food stuffs and construction materials.

Import of goods at FOB prices for nine months of 2009 decreased by 25.9 percent compared to the volume of imports in the similar period of 2008 and was US\$ 1 979.6 million.

**Table 2: Import of goods to the Kyrgyz Republic
(in millions of US dollars)**

	9 mon. 2005	9 mon. 2006	9 mon. 2007	9 mon. 2008	9 mon. 2009
Import (F.O.B)	772,4	1157,2	1775,9	2669,9	1979,6
Growth rate (in percent)	20,2	49,8	53,5	50,3	-25,9

According to a functional distribution of import (at CIF prices) in the accounting period, the largest volume of deliveries was that of consumer goods (30.3 percent of the total volume of imports), energy resources (27.1 percent), and noncapital goods (23.1 percent).

Import of *consumer goods* decreased by 30.0 percent and was US\$ 648.9 million. The significant decrease in import receipts was observed with regard to the following goods: cars, garments and apparel

accessories, footwear, and flour. Import of beer, mineral waters and soft drinks, medicines, milk and dairy produce, as well as cigarettes decreased.

Import of *energy resources* for nine months of 2009 was US\$ 580.8 million, having thus decreased by 37.0 percent compared to this parameter for nine months of 2008. Import of natural gas was US\$ 52.5 million in the accounting period as against US\$ 76.8 million in the similar period of 2008. This reduction resulted from the reduction in the volume of deliveries of natural gas and was connected with a layoff at such large enterprises, as the JSC "Kant Cement and Slate Plant" and the LLC "Interglass". The reduction in the prices of motor petrol, jet fuel, and diesel fuel led to growth of the volume of imports. However, the volume of imports of these goods was reduced in terms of value.

Import receipts of *noncapital goods* decreased by 12.4 percent in January to September 2009, thereby amounting to US\$ 495.2 million. The commodity composition of the given category of import showed the decrease with regard to import of fabrics, fertilizers, rubber tires, and plastics.

The shares of CIS and non-CIS countries were 58.0 and 42.0 percent, accordingly, in the geographical structure of import (at CIF prices).

Import from the CIS countries for nine months of 2009 was reduced by 24.2 percent and totaled US\$ 1 240.9 million. A triad of leaders in import operations was represented by Russia (63.6 percent of the total volume of imports from the CIS countries), Kazakhstan (19.6 percent), and Uzbekistan (6.9 percent). Based on the outcome for nine months of 2009, Russian import was reduced by 30.6 percent and totaled US\$ 63.6 million. A principal cause to observe this tendency was that of the reduction in receipts of energy resources, in particular, jet fuel, motor petrol, crude oil, and diesel fuel. The decrease was also observed with regard to the consumer goods (beer, milk and dairy produce, margarine and combined fats, and medicines), and the noncapital goods (inorganic chemical substances, rubber tires). Import from Kazakhstan in the accounting period decreased by 8.3 percent and was US\$ 243.4 million. Receipts of sugar and flour, soft drinks, cigarettes,

stone, sand and gravel, scrap iron, and jet fuel were reduced in the commodity composition of Kazakhstan import. Growth was noted in import of wheat, vegetable oil, and inorganic chemical substances. Import from Uzbekistan was US\$ 85.8 million, having decreased by 24.4 percent compared to the given parameter for nine months of 2008. The commodity composition of import from Uzbekistan is represented by, mainly, energy resources and the noncapital goods. The composition of energy resources showed the decrease by 24.3 percent in import of natural gas, with the volume of imports of fuel reduced by 31.7 percent. The noncapital goods were represented by Portland cement, whose import increased by 71.1 percent and was US\$ 14.7 million, and by fertilizers, whose deliveries were reduced by 80.7 percent and were US\$ 2.8 million. In the accounting period, import from Belarus was noted to grow. Receipt of goods from the given country increased by 36.4 percent and was at the level of US\$ 48.1 million. This growth resulted from increased import of investment goods, such as tractors, cargo trucks, and cars for transportation of people. Except that, import of sugar from this country increased.

Imports from the non-CIS countries for nine months of 2009 totaled US\$ 899.4 million, being by 28.6 percent below the same parameter for the similar period of 2008. China was traditionally the largest partner among the non-CIS countries and its share in the total volume of imports in this group of countries was 44.7 percent, having decreased by 16.0 percent. This fact speaks for the decrease in import receipts of fabrics, manual and machine tools, telecommunication devices and equipment, cargo trucks, and garments and footwear. Growth of import was observed with regard to such goods, as rice and machines and civil construction equipment. Import from the USA was reduced by 7.6 percent and was US\$ 74.2 million. The commodity composition of import from the USA was represented by the following basic goods: meat and meat products (growth by 11.4 percent or by US\$ 1.8 million), medicines (the reduction by 69.6 percent or by US\$ 10.8 million), machines and civil construction equipment (growth 10.5 times or by US\$ 4.2 million), cars (the reduction by 78.9 percent or by US\$ 11.4 million). In the period under review the number of

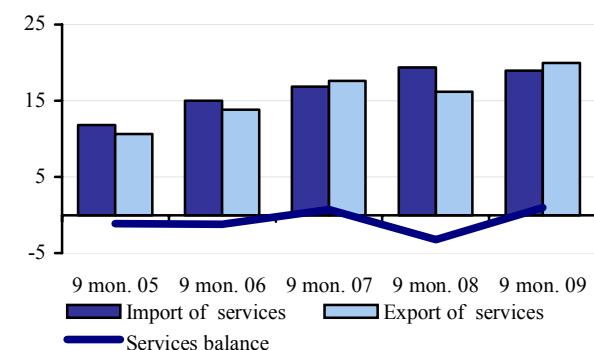

large partner countries in import included Germany as well, with the volume of imports from this country totaling US\$ 71.6 million, being thus below the parameter for nine months of 2008 by 66.6 percent. This tendency speaks for, basically, the reduction in import of cars and silicon.

INTERNATIONAL SERVICES

For the period from January to September 2009, the balance of international services was positive at the rate of US\$ 31.1 million as against its negative value of US\$ 116.3 million for nine months of 2008.

The turnover of international services developed in the amount of US\$ 1 245.3 million, thereby making 38.9 percent of GDP.

**Chart 3: Balance of International services
in percent of GDP**

The bulk of the turnover of international services fell on such countries, as Kazakhstan - 17.3 percent, Russia - 17.1 percent, Uzbekistan - 6.7 percent, Tajikistan - 5.9 percent, the USA - 5.4 percent, and China - 4.3 percent.

The share of export of services was observed to exceed the share of import in the international turnover of services for nine months of 2009. For instance, the share of export of services was 51.2 percent with that of import being 48.8 percent.

According to the outcome for nine months of 2009, **export of services** developed in the volume of US\$ 638.2 million and increased by 9.1 percent compared to this parameter for the similar period of 2008.

In the geographical structure of export of services the significant share fell on the CIS countries - 63.4

percent, and 36.6 percent - on the non-CIS countries.

Among the CIS countries, the most essential share was that of Kazakhstan - 26.0 percent of the total volume of imports of services, the share of Uzbekistan was 12.2 percent, that of Tajikistan - 11.1 percent, and Russia - 9.0 percent. Among the non-CIS countries, the largest share was that of the USA - 9.0 percent, China - 6.0 percent, and Turkey - 2.0 percent.

According to the outcome for nine months of 2009, significant growth of export of services was observed to such countries, as Tajikistan - 5.2 times (to US\$ 70.8 million), China - 6.8 times (to US\$ 40.2 million), the USA - by 30.2 percent (to US\$ 54.7 million), and Turkey - by 41.6 percent (to US\$ 11.2 million).

At the same time, the reduction was noted in the volume of exports of services to Kazakhstan - by 6.3 percent (to US\$ 165.9 million), Uzbekistan - by 18.5 percent (to US\$ 77.9 million), Russia - by 22.6 percent (to US\$ 57.3 million).

Growth was registered in the structure of export of services with regard to an item "Trips" - by 6.7 percent, the business services - by 50.3 percent, and the financial services - by 24.0 percent.

Export of services in the Trips item was US\$ 339.1 million or 53.1 percent of the total volume of exports of services. The business services amounted to US\$ 94.1 million, their share was 14.7 percent, with growth in this item resulting from growth of services in mining.

In the period under review, a decline was noted in export of transport services by 8.2 percent, insurance services - by 69.8 percent, communication services - by 41.4 percent, and government services - by 14.4 percent.

The share of transport services in the accounting period was 15.2 percent in the total volume of exports of services. The decline in the volume of these transport services was caused by the reduction in the volumes of services in the sphere of railway transportation by 24.3 percent and pipeline transport by 14.5 percent.

Import of services in the period under review developed in the volume US\$ 607.1 million and decreased by 13.4 percent compared to this parameter for nine months of 2008.

According to the geographical distribution, the largest share of import of services fell on the CIS countries - 67.8 percent, with 32.2 percent being the share of non-CIS countries.

The principal CIS partner countries were: Russia, whose share makes 25.7 percent of the total volume of imports of services, and Kazakhstan – its share was 8.2 percent. Of non-CIS countries, the largest share was that of Turkey - 2.8 percent, China - 2.3 percent, the USA - 2.0 percent; and Germany and the Great Britain - 1.7 percent.

Growth of import of services from such countries, as China - by 11.5 percent, (to US\$ 13.8 million), Great Britain - by 11.0 percent (to US\$ 10.4 million) and Switzerland - by 42.2 percent (to US\$ 8.8 million) was observed in the period under review.

The reduction was noted at the same time in import of services from Russia by 18.3 percent (to 156.1 million US\$), Kazakhstan by 19.0 percent (to US\$ 49.6 million), Turkey by 8.2 percent (to US\$ 16.8 million) and the USA - by 36.2 percent (to US\$ 12.3 million).

The basic items of import of services were those of transport services, whose share was 48.4 percent, trips - 30.9 percent, business services - 9.5 percent, and other services - 3.9 percent.

With regard to the structure of import of services, the reduction was observed in the transport services, the services under the Trips item, and in the business services.

The decline in the volume of imports of transport services by 16.8 percent compared to their volume in the similar period of 2008 was caused by the reduction in the volume of rail transportation - by 16.9 percent, airline traffic - by 14.1 percent, and motor transportation transportations - by 16.5 percent.

The decline in the volume of imports of services under the Trips item by 7.7 percent, (to US\$ 187.8 million)

was due to the reduction in the number of residents going abroad.

The volume of imports of business services was reduced by 16.7 percent compared to the similar parameter for nine months of 2008 and was US\$ 57.7 million.

INCOME

According to the outcome for nine months of 2009, the balance of income developed as negative at the rate of US\$ 87.4 million, having thus decreased by 12.8 percent against the balance in the comparable period of 2008.

The decrease in this item was, first of all, caused by the reduction in income of direct foreign investors from investment activity in Kyrgyzstan. For instance, compared to the similar parameter in the comparable period of 2008, income of direct foreign investors for nine months of 2009 was reduced by 45.8 percent and totaled US\$ 44.3 million.

The decrease in the negative balance of income was affected by also the increase in income of residents of the country on portfolio investments abroad: for instance, compared to income for nine months of 2008, the given parameter increased 13 times and was US\$ 3.9 million.

The balance in the item “Labor Remuneration” in the accounting period developed as negative at the rate of US\$ 18.4 million and increased by 12.0 percent, caused by excess income of non-residents from labor activity in Kyrgyzstan over income from labor activity of residents abroad. For instance, income of non-residents in our country was US\$ 15.3 million, being by 12.6 percent more than in the similar period of 2008, while income of residents abroad developed at the rate of US\$ 3.1 million according to the outcome for nine months of 2009.

TRANSFERS

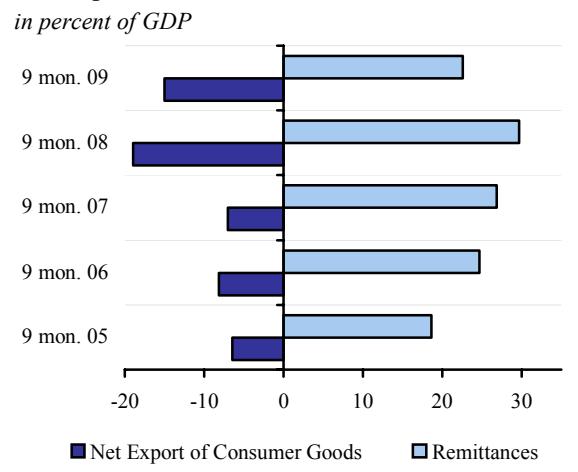

The balance of **current transfers** for nine months of 2009 formed positive at the rate of US\$ 892.7 million and it is less than the parameter of the similar period by 18.8 percent. The bulk in the total volume of current transfers fell traditionally on **migrant**

remittances, whose net inflow was reduced by 32.8 percent for the accounting period.

In the total inflow of workers' remittances, the largest share was that of remittances through various transfers systems (90.0 percent). For the accounting period, the net inflow of remittances through the transfer systems was reduced by 23.3 percent compared to the volumes of transfers for the comparable period of 2008. This reduction in the volume of remittances as a whole did not affect the geographical structure of transfers that remains stable for the recent years. For instance, according to the outcome for nine months of 2009, the bulk of transfers came from the Russian Federation (88.4 percent), the USA (7.9 percent) and Kazakhstan (3.4 percent). The transfers from the Kyrgyz Republic basically went to the Russian Federation (97.6 percent), the USA (1.6 percent), and Kazakhstan (0.3 percent).

The balance of remittances in the period under review, still, covers net export of consumer goods, which in turn developed with the deficit of US\$ 480.5 million.

Chart 4: Balance of remittances and Net Export of Consumer Goods

The net inflow of **official transfers** was US\$ 169.2 million and it is 6.9 times more than this parameter for the similar period of the previous year. This growth resulted from the essential increase in the volume of

¹ Anelik, Blizko, Contact, Migom, MoneyGram, Western Union, Unistream, Zolotaya Korona, Lider, Sibkontakt, Bystraya pochta, Allyur and other. The transfer systems and the transfers via the Public Company «Kyrgyzpochtasy»; excluding the NBKR adjustments.

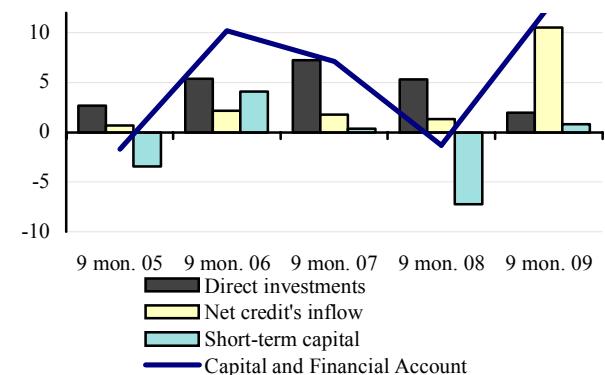

the cash grants received by the public sector, in particular, of the grant from the Russian Federation at the rate of US\$ 150 million. However, excluding this grant, the inflow of official transfers, as against the transfers in the similar period of the previous year, decreased by 21.9 percent for nine months of 2009.

CAPITAL AND FINANCIAL ACCOUNT

The balance of the **capital and financial account** formed positive at the rate of US\$ 405.8 million in the accounting period compared to its negative value of US\$ 47.5 million in the similar period of 2008.

Chart 5: Capital and Financial Account

in percent of GDP

The **capital account** deficit for nine months of 2009 formed at the rate of US\$ 19.1 million and it is by 26.3 percent less than it was in the comparable period of 2008. This item was most significantly influenced by the operations connected with capital flows of migrants, who went abroad for permanent place of residence. For instance, assets exported by the migrants are estimated at US\$ 59.8 million, while the assets imported by the migrants amounted to only US\$ 6.7 million. The net position on the assets of migrants for the period under review was US\$ 53.1 million and it is by 14.6 percent lower than this indicator in the similar period of the last year.

According to the outcome for nine months of 2009, the balance of the **financial account** formed positive at the rate of US\$ 424.9 million as against its negative value amounting to US\$ 21.6 million in the similar period of 2008. The net inflow of capital on direct and other investment, on the one hand, and the net outflow of capital on portfolio investment, on the other

hand, had their impact on the financial account.

The positive balance of **direct investment** totaled US\$ 62.5 million and it is by 67.7 percent less than its value in the similar period of 2008.

The value of this indicator formed as a result of growth of direct investments of residents abroad totaling US\$ 0.6 million, whereas the net outflow of direct investments from Kyrgyzstan, having decreased by 68.9 percent, amounted to US\$ 61.9 million. This change was due to the reduction of the inflow of investment, with the substantial increase in the repayment of funds for the earlier received investments. The major outflow of payments on direct investment is observed to the CIS countries, namely, to Kazakhstan – at the rate of US\$ 63.1 million, whose share was 99.0 percent of the total volume of the net outflow to the CIS countries. With regard to the non-CIS countries, the outflow of capital is observed to Turkey – at the rate of US\$ 8.1 million (33.8 percent of the total volume of the outflow to the non-CIS countries), Hungary – US\$ 5.4 million (22.9 percent) and Kuwait – US\$ 4.7 million (19.6 percent).

With regard to types of economic activity, the repayment of funds on direct investments was observed in processing – at the rate of US\$ 17.8 million and financing – US\$ 8.7 million.

As a result of operations conducted by the commercial banks with foreign securities, the net outflow of capital on portfolio investment totaled US\$ 1.1 million for the reporting period and it is by 67.8 percent more than the comparable indicator derived from the outcome for nine months of 2008.

The balance of **direct investment** in the period under review formed positive in the volume of US\$ 363.5 million as against its negative value at the rate of US\$ 214.2 million for the similar period of the last year. Growth of foreign liabilities with the simultaneous reduction of foreign assets of resident of the Kyrgyz Republic abroad contributed to formation of this item.

As compared to this indicator for nine months of 2008, the foreign assets of residents were noted to decrease by 54.5 percent and total US\$ 129.1 million. The

developments in the foreign assets were influenced by, mainly, the reduction of rates of growth of accounts receivable to US\$ 9.2 million, while the outcome for nine months of 2008 indicated their increase by US\$ 222.1 million.

The net inflow was noted with the regard to the foreign liabilities – at the rate of US\$ 492.6 million - and it is 7.1 times more than the value of this indicator in the comparable period of 2008. Formation of this item was influenced by growth of foreign liabilities of commercial banks and the volume of foreign credits, on the one hand, and the significant reduction in the accounts payable, on the other hand.

The foreign liabilities of commercial banks totaled US\$ 15.8 million, speaking for accumulation by the commercial banks of cash and deposits in foreign currency in the amount of US\$ 24.4 million.

The volume of credits received by nonresidents increased 7.1 times and totaled US\$ 337.3 million, of which the public sector received US\$ 354.5 million, with US\$ 300.0 million being the Russian credit. The net outflow of capital on the earlier attracted funds of US\$ 17.2 million was registered in the private sector, whereas the outcome for nine months of 2008 indicated the net inflow at the rate of US\$ 62.9 million.

The accounts payable decreased to US\$ 7.2 million, while in the comparable period these accounts were observed to increase by US\$ 62.9 million.

Furthermore, the allocation of SDR between the IMF countries-members to support their balance of payments had the impact on the value of foreign liabilities. As a result, the liabilities of the Kyrgyz Republic increased by US\$ 132.2 billion.

The item “**Errors and Omissions**” developed with the negative balance in the amount of US\$ 231.9 billion and it testifies to lack of accounting of the inflow of capital to the country.

Gross international reserves totaled US\$ 1 496.5 million, thereby covering 4.2 months of the future volume of imports of goods and services.

Comment:

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated

Short-term investment are investments in financial assets, with maturity of one year or less than one year, pursuant to contract, or paid as short notice

**Table II.1: Sources of Information Used by the National Bank
for Compilation of the Balance of Payments of the Kyrgyz Republic**

Items of the Balance of Payments	Sources of information	Contents of information
Current account		
Commodities		
Export of goods (F.O.B.)		
export	NSC	
commodities purchased in ports	NSC	
nonmonetary gold	NSC	
Import of goods (F.O.B.)		
import (C.I.F.)	NSC	
value adjustment	NSC	NSC estimate of the share of transport and insurance services in import at C.I.F. prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises according to form 1-services
Services		
Transportation services	NSC, CB	estimates NSC of the share of transportation costs in import at C.I.F. on the basis of inspection of the enterprises
Travels	NSC	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	MTC	
Construction	CB	
Insurance services	NSC, enterprises, NBKR	assessment by the share of costs in import at C.I.F. prices on the basis of surveys of enterprises; data from enterprises and banking statistics
Financial services	NBKR, CB	
Computer and information	CB	
Government services	MFA, CB	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR
Business services	NSC, CB, enterprises	data on other business technical services, collected from enterprises according to reporting form 8VES-services; data from some large enterprises
including technical assistance	IMF, MF	the estimated data
Other services	NSC, CB	data on other services collected from enterprises according to reporting form 8 VES-services; data on other services from banking statistics
Income		
Employee compensation	NSC, CB,	
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	
Other investment income		
Interest on loans		
Monetary authorities	NBKR	
General government	MF, NBKR,	
Banks	CB	
Other sectors	Enterprises	
Other investment income	NBKR, CB, enterprises	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB and enterprises from assets abroad

Table II.1: (continue)

Items of the Balance of Payments	Sources of information	Contents of information
Current transfers		
Humanitarian aid	NSC, enterprises	data on rendered humanitarian aid based on SCI data
Technical assistance	IMF	the estimated data
Other grants	NBKR	
Contributions to international	MF	
Workers' remittances	MT&C, CB	
Current and financial account		
Capital transfers		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Debt forgiveness	Enterprises,	
Direct investment		
Abroad	CB,	
To the Kyrgyz Republic	NSC, CB, enterprises	data on direct investment collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment into the banking sector; data of some large joint ventures
Portfolio investment		
Promissory notes	NBKR, CB,	
Financial derivative		
Other investment		
Assets		
Money in cash and deposits		
Banks	CB	
Other sectors	Enterprises	
Trade loans	NSC	
Other assets		
Monetary authorities	NBKR	
General government	MF	
Liabilities		
Money in cash and deposits		
Banks	CB	
Trade loans	NSC	
Loans		
Monetary authorities	NBKR	data on IMF loans
General government	MF, NBKR, enterprises	data on loans received/repaid by the public sector or under guarantee of the Government
Banks	CB	data from banking statistics on loans received by commercial banks
Other sectors	Enterprises	data on loans received/repaid under no guarantee of the Government
Overdue debts	MF, CB,	
Reserve assets	NBKR
