Balance of Payments of the Kyrgyz Republic

"Balance of payments of the Kyrgyz Republic" is issued by the National Bank of the Kyrgyz Republic. This document reflects last tendencies in external sector development and shows statistical data on the balance of payments, external trade, international reserves, external debt and international investment position, as well as construction methods of balance of payments and informational database. This document is published 4 times a year - in January, May, July and October and has 3 language versions: Kyrgyz, Russian and English.

In the current issue portfolio investment data had been revised since the second quarter of 2007, particularly debt securities data was added. REER data had been revised for year 2010, particularly inflation data of the USA was revised.

Last day for update of data for the present publication is January 20, 2011.

Annotation symbols and notes:

- ... means the absence of data;
- means, that indicators/ratios are equal to 0 (zero) or insignificant;
- is set between years or months (e.g., 1994-1996 or January-June) and means, that all years and months are covered by the shown dates.

Deviations in last digits may occur because of rounding numbers when summing up.

In regard with the possible changes in accounting methods or historical data, which are used in the given document, correction of earlier published data is acceptable. Therefore, 10 years period can be accounted as "open period".

CURRENT ACCOUNT BALANCE

Within January-September, 2010, the overall **net balance of payments** has formed positive in the amount of US\$ 27.1 million.

Within the period of nine months, 2010, **current account balance** has formed negative and amounted to US\$ 213.8 million or 5.7 per cent to GDP.

Chart 1: Current Account

in percent of GDP

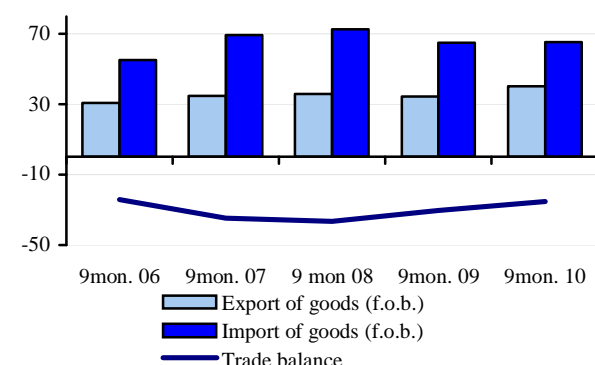

TRADE BALANCE¹

Within January-September, 2010, deficit of **trade balance** (with regard to additional estimations of NSC and NBKR) of the Kyrgyz Republic has increased by 1.8 per cent in comparison with the corresponding period of 2009 and amounted to US\$ 902.1 million.

Chart 2: Trade balance

in percent of GDP

In the reporting period, **external turnover** in f.o.b. prices (with regard to additional estimations of NSC

¹ The data on external trade is provided without regard to additional estimations of NSC and NBKR, if otherwise is not specified.

and NBKR) has increased by 8.2 per cent compared to the same period in 2009 and amounted to US\$ 3 322.1 million. Goods turnover of Kyrgyzstan with non-CIS countries has increased within the accounting period by 17.1 per cent or by US\$237.6 million compared to the same period of 2009. Slower increase was observed in foreign trade with the CIS countries (by 0.8 per cent or US\$ 14.2 million). Meanwhile, the nominal volume of goods turnover with the CIS and non-CIS countries is approximately equal.

Export of goods in f.o.b. prices (with regard to additional estimations of NSC and NBKR) has increased by 10.8 per cent and amounted to US\$ 1 210.0 million. Increase in the overall export was conditioned by gold supplies; the later has increased by 53.9 per cent or by US\$153.1 million in absolute terms. Considerable decrease was observed in the oil products re-export to the CIS countries (by 83.3 per cent or US\$ 91.8 million).

Table 1: Export of goods

(in millions of US dollars)

| | 9mon. 06 | 9mon. 07 | 9mon. 08 | 9mon. 09 | 9mon. 10 |
|-----------------------------|----------|----------|----------|----------|----------|
| Export (f.o.b) | 646,2 | 944,1 | 1342,8 | 1092,0 | 1210,0 |
| Growth rate (in percent) | 30,1 | 46,1 | 42,2 | -18,7 | 10,8 |

Note:

With regard to additional estimations of NSK and NBKR

According to the functional export structure, increase was observed in respect of interim and consumer goods in the accounting period, the later has become the largest export categories within the aforementioned period (47.9 and 23.9 per cent respectively of the overall export volume). Decrease in supplies was observed on such commodity groups as raw materials, investment goods, and energy products.

The volume of *interim goods* has increased by 43.3 per cent or US\$150.9 million in absolute terms. Meanwhile, the nominal volume of interim goods export has reached the level of US\$499.3 million, US\$437.1 million thereof were provided by gold

supplies mainly to the UAE (52.9 per cent of gold export) and to Switzerland (47.1 per cent).

In the accounting period, the volume of *consumer goods* export has increased by 46.3 per cent (by US\$78.9 million) and amounted to US\$249.0 million. The export volume of clothes and clothing accessories has considerably increased (by US\$48.4 million). Moreover, positive trend was observed in the supplies of vegetables (increase by US\$ 5.3 million), milk and dairy products (increase by US\$ 5.0 million), telephones (by US\$4.3 million), meat and meat products (by US\$3.8 million), filament electric lamps (by US\$1.5 million).

The *energy products* export has decreased by 47.2 per cent and amounted to US\$ 89.7 million. The current trend was conditioned by decrease in the volume of kerosene re-export to the third countries (particularly to Uzbekistan) as a result of increase in prices for oil products purchased by Kyrgyzstan in the Russian Federation. Thus, the volume of kerosene re-export has decreased in the accounting period by 68.6 per cent or by US\$82.3 million. In the accounting period, the volume of electric energy export has increased by 14.1 per cent from the same period of 2009 and amounted to US\$35.4 million. The volume of electric energy export has amounted to 1 184.9 million kilowatt-hour in kind, compared to 776.4 million kilowatt-hour in the same period, 2009.

The overall nominal value of raw materials export has made US\$177.0 million due to decrease in supplies by 15.2 per cent (by US\$31.6 million). Decrease in the nominal value of inorganic chemicals by 14.4 per cent (by US\$23.6 million) conditioned negative trend formation, while physical volume of supplies has increased by 2.4 per cent the later witnesses decrease in export prices. Negative trend was conditioned by decrease in cotton export in the accounting period by 40.8 per cent (by US\$3.1 million) compared to the same period, 2009, due to reduction of export physical volume. The tobacco export has increased by 42.9 per cent or by US\$5.9 million due to increase in the volume of supplies.

Within nine months of 2010, a major share of good has been exported to the non-CIS countries - 63.8

per cent, to the CIS countries - 36.2 per cent respectively.

A major share of goods was supplied to the UAE (23.8 per cent of the overall export), Switzerland (19.8 percent), Russia (19.0 per cent), and Kazakhstan (12.0 per cent).

In the accounting period, the volume of export to the UAE has 2.6 times increased compared to the same period, 2009, and amounted to US\$248.1 million. The aforementioned growth was conditioned by increased gold supplies the volume thereof has made US\$ 231.2 million based on the results of nine months, 2010. Moreover, increase was observed in the volume of jet fuel re-export to the UAE (in 2.3 times or by US\$ 6.2 million).

The main item of export to Switzerland is gold (99.6 per cent of export to the country), the export volume thereof has been decreased: 5.4 tons in the accounting period compared to 6.8 tons in the same period, 2009. However, growth in prices conditioned positive trend in export of this precious metal, as a result, the cost volume of gold supplies has increased by 4.3 per cent or by US\$ 8.4 million.

The volume of goods export to Russia has increased by 47.4 per cent and amounted to US\$198.0 million. The current trend was mainly conditioned by increase in the volume of consumer goods supply, particularly, clothes and clothing accessories (1.9 times or by US\$48.2 million). The export volume of filament electric lamps (by US\$2.7 million), chemical agents (by US\$7.9 million), kerosene (by US\$4.2 million), and tobacco (by US\$9.6 million) has increased as well.

Increase in the export volume of dairy products (by US\$4.0 million), vegetables (by US\$7.9 million), electric energy (by US\$4.4 million), and inorganic chemicals (by US\$9.8 million) conditioned growth in export to Kazakhstan by 33.3 per cent, the overall volume thereof has made US\$ 125.5 million.

In the accounting period, the volume of export to France has considerably decreased (by US\$ 126.3 million), the later conditions reduction in the volume of inorganic chemicals supplies. Meanwhile, the volume of chemicals supplies to the USA have

increased, as a result, the export volume to this country has increased by US\$70.8 million. The volume of export to Uzbekistan has decreased by US\$101.8 million due to considerable decrease in aviation kerosene re-export.

Within January-September, 2010, the volume of **goods import** in f.o.b. prices has increased by 6.8 per cent and amounted to US\$ 2 112.1 million.

Table 2: Import of goods

(in millions of US dollars)

| | 9mon. 06 | 9mon. 07 | 9 mon 08 | 9mon. 09 | 9mon. 10 |
|-----------------------------|-------------|-------------|-------------|-------------|-------------|
| Import (f.o.b) | 1157,2 | 1775,9 | 2669,9 | 1978,3 | 2112,1 |
| Growth rate (in percent) | 49,8 | 53,5 | 50,3 | -25,9 | 6,8 |

The major import components were, as usual, consumer goods (31.1 per cent of the overall import), energy products (30.6 per cent), and interim goods (20.8 per cent)².

The volume of *consumer goods* import has increased by 9.9 per cent and amounted to US\$712.9 million. Increase in supplies of meat and meat products (by US\$19.9 million), telephones (by 17.3 million), medicines (by US\$11.8 million), essences and fragrance substances (by US\$6.5 million), and sugar (by US\$6.3 million) was observed. Significant reduction in the volume of rice import was observed as well (by US\$8.8 million).

In the accounting period, the volume of *energy products* import has increased by 20.8 per cent and amounted to US\$700.8 million. The share of oil products in the given commodity group has made 89.0 per cent. Increase in prices for imported oil fuel conditioned increase in the nominal value of oil products import, particularly, aviation kerosene (by US\$49.9 million), diesel fuel (by US\$41.2 million), and motor gasoline (by US\$27.1 million). The volume of coal import has increased by 46.0 per cent or by US\$8.2 million; the volume of natural gas import has decreased by 26.9 per cent (by US\$ 14.1 million).

The volume of *interim goods* import has decreased

by 3.6 per cent as per results of nine-month period of 2010, and made US\$477.1 million. According to the commodity composition of this category, the volume of spare parts, automobile accessories (by US\$9.4 million), cast iron and steel (by US\$8.5 million), textile (by US\$3.5 million) and soft wood (by US\$3.4 million) supplies have decreased in the accounting period. Meanwhile, the most significant growth was observed in the volume of fertilizers supplies (2.1 times or US\$9.9 million).

The volume of *investment goods* import has increased by 8.1 per cent in the accounting period and amounted to US\$ 298.7 million. According to the commodity composition of this category, the volume of trucks import (by US\$23.1 million) has considerably increased. Besides, increase in supplies of machines for soil, rock and ores grinding (by US\$9.8 million), electric transformers (by US\$7.6 million), lifters, and conveyors (by US\$7.3 million), as well as construction and mining equipment (by US\$5.1 million) was observed.

According to geographic structure, the CIS countries dominated in the import operations with the specific weight of 55.0 per cent, the share of non-CIS countries amounted to 45.0 per cent. The leading partner countries on import transactions are Russia (33.6 per cent of the overall import volume), China (18.2 per cent), Kazakhstan (11.0 per cent), and the USA (5.8 per cent).

The volume of imported goods from Russia has decreased by 2.4 per cent and amounted to US\$768.7 million. Reducing in the volume of the Russian import is conditioned by decrease in the domestic demand for the oil products imported from this country, particularly for aviation kerosene due to imposing export customs duties. Thus, the volume of kerosene export has decreased by 22.6 per cent or by US\$52.6 million. Besides, there was observed decrease in the volume of coniferous wood (by US\$4.1 million), rubber tire casing (by US\$2.4 million), chocolate products (by US\$2.0 million), as well as machines and transport equipment (by US\$9.4 million) supplies.

The volume of Chinese goods supplies has increased by 3.5 per cent and made US\$416.3 million. Increase in the import volume of consumer and investment

³ Hereinafter import of goods is provided in c.i.f. prices.

goods, such as meat and meat products (by US\$5.4 million), fruits and nuts (by US\$3.1 million), essences and fragrance substances (by US\$4.9 million), hand and machine tool (by US\$3.9 million), telecommunication devices and equipment (by US\$12.3 million), clothes and clothing accessories (by US\$5.1 million) was observed.

Import supplies from Kazakhstan have increased by 1.4 per cent and amounted to US\$ 251.3 million. In the commodity composition of import to Kazakhstan, the volume of sugar supplies has increased by 3.9 times or US\$9.2 million due to expiration of sugar import quotas in April, 2010. Besides, increase was observed in the volume of the following imported goods: gasoline for motor vehicles (by US\$10.3 million), mazut (by US\$8.7 million), coal (by US\$7.6 million), and vegetable oil (by US\$5.5 million). Considerable decrease was observed in the supplies of inorganic chemicals (by US\$27.7 million) and wheat (by US\$8.5 million). The volume of flour import from this country has considerably decreased by 79.7 per cent and amounted to US\$13.2 million in absolute terms. This trend is conditioned by introduction of import duty, in June, 2009, in the amount of KGS 3 per 1 kg of this commodity. In August, 2010, the size of duty was decreased to KGS 1; however, this fact had no significant influence on the index of flour import.

The volume of goods imported from the USA has increased by 1.8 times in comparison with the corresponding period of 2009 and amounted to US\$ 133.8 million. Fundamental changes occurred on the following commodity positions: the volume of meat and meat products import has increased by US\$14.7 million, the supplies of machines and equipment for civil construction have increased by US\$6.2 million, the most considerable increase, by US\$31.0 million, was observed in the supplies of trucks.

INTERNATIONAL SERVICES

Within nine months, 2010, the international services balance has become negative in the amount of US\$177.0 million against service positive balance in the amount of US\$ 25.1 million within nine months, 2009. Deficit of services foreign trade is conditioned by decrease in the volume of the services rendered,

while increase was observed in the services received from nonresidents.

The turnover of international services has decreased by 5.8 per cent and amounted to US\$1 171.7 million.

Chart 3: Balance of international services

in percent of GDP

Within nine months, 2010, reduction in such items of international service exports as "travel", "financial", "other", and "construction services" conditioned decrease in services export by 21.6 per cent, to US\$497.3 million against corresponding period of 2009.

Considerable decrease of the services export, by US\$ 133.1 million, was observed in respect of "travel" item. Decrease on the items "financial services" and "other services" has amounted to US\$10.0 and 14.7 million in respectively.

Increase in export was observed on other items. Increase in export was observed on such major items as "transport services" - by US\$7.4 million, "communication services" - by US\$6.7 million in value terms.

In the structure of export services a major share belongs to export index on such items as "travel" (41.4 per cent of the overall export), "transport services" (21.0 per cent), as well as "business services" (17.9 per cent).

Within nine months, 2010, service import has increased by 10.7 per cent compared to the same period of 2009 and amounted to US\$674.3 million. Its growth is primarily conditioned by increase in import of "business services", "financial services", and the services connected with the travel of residents abroad.

Considerable increase in the service import index was observed under the item "business services" item, within the accounting period, the later has increased by US\$54.1 million against corresponding period of 2009. In the total volume of import the specific weight of this item amounts to 16.6 per cent.

Within nine months, 2010, the volume of import on "financial services" item has increased by US\$10.6 million, the volume of import on "travel" item has increased by US\$9.7 million in comparison with the relevant period of 2009.

Decrease in the services import was observed on such items as "transport services" (by US\$3.5 million), "other services" (by US\$11.9 million), and "construction services" (\$1.4 million).

The share of "transport services" import in the aggregate volume of services import has decreased by 5.2 per cent points and amounted to 43.0 per cent. Within the reviewed period, decrease in the volume of "transport services" import compared to the same period of 2009 is resulted from reduction of shipments by 40.0 per cent performed by other types of transportation.

The aggregate "construction services" and "other services" import ratio has made 3.2 per cent of the total import volume.

INCOME

Based on the results of nine months, 2010, the negative income balance has increased by 11.7 per cent against the index of the corresponding period of 2009, and amounted to US\$110.1 million.

Increase in the volume of negative balance in respect of this item is conditioned by growth in incomes of direct foreign investors received from the investment activity in Kyrgyzstan. Thus, in comparison with nine months of 2009, negative balance on the item "incomes on direct investments" has increased by US\$23.2 million and amounted to US\$65.3 million.

Besides, the incomes of residents on "portfolio investments" abroad have decreased to US\$0.2 million, while the same index within nine months, 2009, has amounted to US\$ 3.9 million.

Meanwhile, decrease of interest payments for earlier received credits by 11.6 per cent conditioned reduction of negative income balance on "other investments" to US\$23.0 million.

In the accounting period, the balance of "compensation of employees" item has formed as negative in the amount of US\$21.9 million against corresponding period of 2009; this index has increased by 19.1 per cent. This increase was conditioned by the fact that incomes of non-residents from labor activity in Kyrgyzstan exceeded the incomes of residents received from labor activity abroad. It should be noted that accounting of residents abroad on the item "compensation of employees" is maintained incompletely.

TRANSFERS

Based on the results of nine months, 2010, the balance of current transfers has formed positive in the amount of US\$975.4 million, increase by 9.2 per cent from the same period of 2009.

Within nine months of 2010, net inflow of current transfers into the "public sector" (standard presentation) has decreased by 59.4 per cent and amounted to US\$68.9 million against corresponding period of 2009. Considerable decrease of such index is primarily conditioned by high level of base period when the Government of the Russian Federation granted US\$150.0 million. Meanwhile, within nine months, 2010, without taking into account this grant, net inflow of current transfers into the "public sector" has 2.5 times increased compared to the same period, 2009.

Net inflow of current transfers into "other sectors" (standard presentation) has increased by 25.3 per cent and amounted to US\$ 906.6 million. The major share in the total volume of incomings belonged, as usual, to the item "workers' remittances", within the accounting period, net inflow of the later has increased by 26.0 per cent in comparison with the corresponding period of 2009.

Meanwhile, in the gross inflow of workers' money transfers the major share belonged to money transfers through transfer systems (98.9 per cent). Within the accounting period, net inflow through money transfer systems has increased from US\$635.2 million to

US\$803.7 million compared to the same index of nine months, 2009.

Generally, the geographic structure of money transfers has remained unchanged. Based on the results of nine months, 2010, the major share of money transfers was received from the Russian Federation (92.5 per cent), the USA (3.7 per cent), and Kazakhstan (2.8 per cent). Outflow of money transfers was primarily forwarded to the Russian Federation (98.3 per cent).

Chart 4: Balance of remittances and net export of consumer goods

in percent of GDP

Money transfers balance 1.9 times exceeds consumer goods net export, the later has formed with deficit in the amount of US\$463.9 million.

CAPITAL AND FINANCIAL ACCOUNT

In the accounting period, the balance of **capital and financial account** (in analytical presentation) has formed positive in the amount of US\$276.3 million, against positive value of US\$644.8 million in the corresponding period of 2009.

Chart 5: Capital and financial account

in percent of GDP

Within nine months, 2010, deficit of capital account has 2.4 times increased against corresponding period of 2009 and amounted to US\$46.4 million. Changes in this item were primarily conditioned by transactions connected with movements of migrants' capital leaving for permanent residence abroad. Within the accounting period, deficit in respect of the item "migrants' transfers" has 1.6 times increased and amounted to US\$85.2 million in value terms.

Within nine months, 2010, positive balance of financial account has decreased by 51.4 per cent from against corresponding period of 2009 and amounted to US\$322.6 million.

Based on the results of nine months, 2010, inflow of "direct investments" to the Kyrgyz Republic has 2.1 times increased in comparison with the corresponding index of 2009 and amounted to US\$131.0 million.

In the reviewed period, increase in the net inflow of foreign direct investments was primarily observed from the non-CIS countries, particularly, from Canada in the amount of US\$ 93.1 million, the USA and Great Britain - US\$ 12.7 million, among the CIS countries - from Russia, in the amount of US\$ 9.4 million.

Based on the types of economic activity, net inflow of "direct investments" was primarily observed in the processing industry in the amount of US\$ 102.9 million and in the real estate - US\$59.0 million.

Within nine months, 2010, net inflow of "portfolio investments" has decreased to US\$103.1 million. Such change is conditioned by reduction if the nonresidents' debt securities being possessed by the residents of our country. Meanwhile, it should be noted that the data on portfolio investments were revised from the 2-nd quarter, 2007, upwards, namely data on debt securities were added.

Based on the results of nine months, 2010, the balance of "other investments" item has formed positive in the amount of US\$88.5 million, decrease by 73.4 per cent in comparison with the corresponding index of 2009. The formation of this item was effected by decrease in the external liabilities of residents before "outside world" and external assets of residents abroad.

Thus, within nine months, 2010, capital outflow was

observed in the liabilities of residents before the "outside world", where the negative balance amounts to US\$140.5 million against positive value of US\$472.1 million in the same period of 2009.

External liabilities of the country were conditioned by capital outflow from the banking system in the amount of US\$200.1 million (within nine months, 2009, the volume of inflow amounted to US\$15.8 million) and considerable decrease in the volume of attracted credits by 79.4 per cent compared to nine months, 2009. In respect of the capital outflow from the banking system in the amount of US\$200.1 million it should be noted that this index has been formed on the basis of banking statistics comprising the indices of AUB OJSC³. Without taking into account the transactions of AUB OJSC, the volume of capital outflow from the banking system has amounted to US\$28.4 million.

Based on the results of nine months, 2010, net credit inflow into the public sector has decreased by 66.6 per cent and amounted to US\$110.2 million. Decline was primarily conditioned by decrease in the volume of attracted credits by 61.7 per cent. Within nine months, 2010, netto-position in respect of "credits to

private sector" item has formed negative in the amount of US\$45.0 million and has 3.4 times exceeded the corresponding index of 2009. Within the accounting period, 2 times increase in the credit inflow was observed in respect of this item, alongside with it obligations servicing on earlier attracted credits has 2.5 times increased compared to nine months, 2009.

In the reviewed period, 2010, residents' accounts payable have formed negative in the amount of US\$5.6 million against positive value of US\$ 7.2 million in the same period, 2009.

The item "**Errors and omissions**" has formed with negative balance in the amount of US\$35.4 million, the later witnesses about underestimation of transactions connected with capital outflow from the Republic or about underestimation of goods and services import.

At the end of the accounting period, the volume of gross international reserves has made US\$1 684.6 million, increase by 12.6 per cent compared to the same index of 2009. Cover ratio by monetary gold and foreign exchange reserves of the future goods and services import has amounted to 4.5 months.

³ The balance of AUB OJSC has been admitted as incorrect

Comment:

* including data of NBKR

** including the allocation of SDR between the IMF countries-members to support their balance of payments had the impact on the value of foreign liabilities. As a result, the liabilities of the Kyrgyz Republic increased by US\$ 132.2 billion.

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated

Short-term investment are investments in financial assets, with maturity of one year or less than one year, pursuant to contract, or paid as short notice

* including the allocation of SDR between the IMF countries-members to support their balance of payments had the impact on the value of foreign liabilities. As a result, the liabilities of the Kyrgyz Republic increased by US\$ 132.2 billion.

**Table II.1: Information Sources, Used by the National Bank
for Compilation of the Balance of Payments of the Kyrgyz Republic**

| Items of the Balance of Payments | Sources of information | Contents of information |
|-----------------------------------|-----------------------------|---|
| Current account | | |
| Commodities | | |
| Export of goods (f.o.b.) | | |
| export | NSC | |
| commodities purchased in ports | NSC | |
| nonmonetary gold | NSC | |
| Import of goods (f.o.b.) | | |
| import (c.i.f.) | NSC | |
| value adjustment | NSC | NSC estimate of the share of transport and insurance services in import at c.i.f. prices on the basis of survey of enterprises |
| commodities purchased in ports | NSC | data on import of bunker fuel based on reports of enterprises |
| Services | | |
| Transportation services | NSC, CB | estimates of NSC of the share of transportation costs in import at c.i.f. prices on the basis of survey of enterprises |
| Travels | NSC | estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic) |
| Communication services | NSC, MTC | |
| Construction services | CB | |
| Insurance services | NSC, enterprises, CB | NSC assessment by the share of costs in import at c.i.f. prices on the basis of surveys of enterprises and banking statistics data |
| Financial services | NBKR, CB | |
| Computer and information services | CB | |
| Government services | MFA, CB | data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR |
| Business services | NSC, CB, enterprises | data on other business technical services, collected from enterprises according to reporting form 8VES-services; |
| including technical assistance | IMF, MF | estimated data |
| Other services | NSC, CB | data on other services collected from enterprises according to reporting form 8 VES-services; data on other services from banking statistics |
| Income | | |
| Employee compensation | NSC, CB, enterprises | |
