## ***Balance of Payments of the Kyrgyz Republic***

Balance of Payments of the Kyrgyz Republic prepared by the National Bank of the Kyrgyz Republic. This issue reflects recent external sector trends and contains tables with data on the balance of payments, analytic and standard presentation formats, a pattern of foreign trade, international reserves, external debt, the balance of payments compilation methodology and data base, as well as on the Kyrgyz Republic's international investment position. The edition is published 4 times a year – in January, May, July, and October. It is published in three languages: Kyrgyz, Russian, and English.

**The final update date for the present edition** is January 28, 2005

### **Notation:**

- ... data are not available;
- indicators are equal to 0 (zero) or negligible;
- period between years or months (for example, 1994 – 1996 or January - June).

Due to rounding of numbers there could be discrepancies in the numbers following a dot.

Due to the possible changes in accounting techniques of historical data, used in this publication, there would be adjustments made to the earlier published data and, accordingly, the period of 5 years is considered as “open”.

## **Other publications of the National Bank of the Kyrgyz Republic**

### ***Annual Report of the National Bank of the Kyrgyz Republic***

The annual report is the NBKR's full account of the work during the reporting year. It contains a short description of real sector developments in the economy of the republic and decisions and actions of the National Bank in the monetary sphere. It comprises information on economic development and a monetary policy, financial reporting, general data on the National Bank, and statistical annexes. It is published in three languages: Kyrgyz, Russian, and English.

### ***Bulletin of the National Bank of the Kyrgyz Republic***

The Bulletin of the NBKR contains macroeconomic indicators of the Kyrgyz Republic on the real, financial, and external sectors of the economy, information on prices, and social indicators. Data from departments of the National Bank, as well as from commercial banks, the Ministry of Finance of the Kyrgyz Republic, the National Statistics Committee of the Kyrgyz Republic, and the National Commission for the Securities Market of the Kyrgyz Republic are used for its compilation. It is published on a monthly basis in Kyrgyz, Russian, and English.

### ***Review of inflation on the Kyrgyz Republic***

Review of inflation in the Kyrgyz Republic contains a description of inflation developments by components in the regional context, and, in general, the analysis of inflation factors and the inflation forecast for the forthcoming quarter. It is published on the quarterly basis in Kyrgyz, Russian and English.

### ***Banking System Development Trends***

The purpose of the “Banking System Development Trends” is to study and assess development of the banking system in Kyrgyzstan, as an official intermediary, to identify obstacles to achievement and maintenance of stability, as well as to estimate elements of stability in the banking system of Kyrgyzstan. It is published as of January 1 and July 1 in Kyrgyz and Russian.

### ***Statutory Acts of the National Bank of the Kyrgyz Republic***

The goal of the publication "Statutory Acts of the National Bank of the Kyrgyz Republic" is to officially publish the statutory acts of the National Bank to furnish the commercial banks and the public with the normative documents of the National Bank and official information about performance of the National Bank, as well as to promulgate the banking legislation of the Kyrgyz Republic. Assumptive periodicity of the journal is to publish once a month in Kyrgyz, Russian and English.

### ***Press Release of the National Bank of the Kyrgyz Republic***

Press Release of the NBKR contains a chronicle of events in the National Bank and the financial market basic data. It is published on a weekly basis in Kyrgyz and Russian.

All of the publications are distributed in compliance with the lists approved through the Orders of Chairman of the National Bank of the Kyrgyz Republic and are placed on the web-site of the NBKR: <http://www.nbkr.kg>

## **List of Abbreviations**

ADB	Asian Development Bank
WB	World Bank
GDP	Gross Domestic Products
PED	Public External Debt. PED is a sum of disbursed and outstanding external public loans or other debt instruments of the Kyrgyz Republic to non-resident creditors of the Kyrgyz Republic with specific maturity, including liabilities of the IMF

## Balance of Payments for 9 months of 2004

### Current Account

The current account deficit in the balance of payments of the Kyrgyz Republic for 9 months of 2004 decreased relative to this indicator for a similar period of the last year and totaled US\$ 72.3 million versus US\$ 74.1 million for 9 months of 2003. Thus, with respect to GDP a gap in the current account decreased to 4.6 percent versus 5.4 percent for 9 months of 2003 being conditioned by a reduction of the negative trade balance, an increase in the debit balance of services and current transfers.

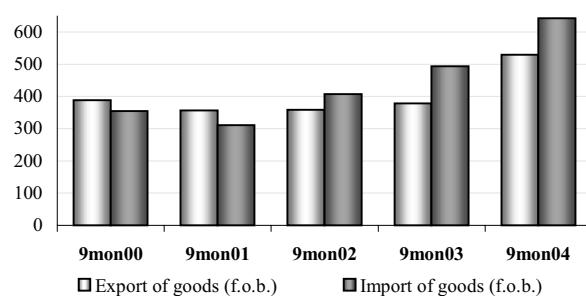

**Chart 1: Current account**  
(in millions of US dollars)

A foreign trade turnover of the Kyrgyz Republic for 9 months of 2004 increased with respect to a comparable period of 2003 by 30.6 percent and totaled US\$ 1173 million.

Import surplus entailed the **deficit of balance** of trade at the rate of US\$ 112.6 million.

**Chart 2: KR Trade Balance**  
(in millions of US dollars)

**Export of goods** at f.o.b. prices for 9 months of 2004 totaled US\$ 530.2 million and it is by 40 percent more than in the comparable period of 2003.

The increase of exports of goods was due to, mainly, growth of both the volume of exports of gold and world prices of gold. With growth of physical deliveries by 18.6 percent, export of gold in terms of value totaled US\$ 224.5 million and it is

by 33.7 percent more than export of the base period.

**Table 1: Export of goods**  
(in millions of US dollars)

	9mon00	9mon01	9mon02	9mon03	9mon04
Export (f.o.b.)	388,3	357,0	358,6	378,8	530,2
Change, in %	9,7	-8,0	0,4	5,6	40,0
CIS	173,8	139,3	117,3	127,1	190,0
Change, in %	12,5	-19,8	-15,8	8,4	49,5
non-CIS	214,5	217,7	241,3	251,7	340,2
Change, in %	20,0	1,5	10,8	4,3	35,2

Export of goods, excluding gold grew by 45 percent due to growth of deliveries of petroleum products, inorganic chemical agents, electricity, incandescent lamps, food products, glass, non-precious metals, construction materials, and textile and textile products, was a determining factor.

A functional structure of export for 9 months of 2004 showed the increase in the volume of consumer goods - to US\$ 107.6 million - and it is by 73.8 percent higher than the indicator of the corresponding period of the last year, when the increase of exports of food products and live animals, industrial goods, machines and transport equipment, and various manufactured products was of critical importance.

Growth of exports of primary products by 56.8 percent was largely due to development of exports of scrap and alloys of ferrous and non-ferrous metals. The volume of exports of goods covered by categories "producers' goods" and "energy products" increased by 33 and 4 percent, correspondingly, due to growth of exports of gold, jet fuel, glass, and construction materials.

Non-CIS countries - 63,8 percent of the total of exports - are major consumers of goods exported from our republic, with the largest consumers being still the United Arabic Emirates (47.5 percent of total exports to the non-CIS countries), Switzerland (20.4 percent), China (9.7 percent) and Canada (9.7 percent). The basic volume of export deliveries to these countries was that of gold, mineral fuel, industrial goods, non-food primary goods (excluding fuel), chemical agents и similar products that were not covered by other categories, as well as the food products.

Basic shares of export in foreign trade with the CIS countries are traditionally those of Russia and Kazakhstan - 81.4 percent. The increase in the export deliveries to Russia was conditioned by growth of exports of vegetables, sugar and honey, kerosene, clothes and glass. Electricity, glass, cement, milk,

products, and electric lamps were mainly exported to Kazakhstan.

**Import of goods** at f.o.b. prices in the period under review totaled US\$ 642.8 million exceeding imports in the base period by 30 percent.

**Table 2: Import of goods**

(in millions of US dollars)

	9mon00	9mon01	9mon02	9mon03	9mon04
Import (f.o.b.)	354,9	311,0	407,7	493,9	642,8
Change, in %	-8	-12	31	21	30
CIS	190,9	170,0	220,1	266,7	385,9
Change, in %	7	-11	29	21	45
non-CIS	164,0	140,9	187,6	227,2	256,8
Change, in %	-21	-14	33	21	13

The largest items of import were that of consumer goods, energy products и producers' goods, with their shares being 33, 25 and 17 percent, correspondingly. Growth of imports of goods covered by this category was noted with respect to such types as food products, live animals, chemical agents and mineral fuel.

In addition, growth of imports of investment goods to US\$ 116.2 million was registered in the period under review (as compared to US\$ 99.1 million for the similar period of the last year). Growth of the volume of investment goods was caused by an increased inflow of such goods, as machines and transportation equipment and industrial goods.

For the period under review, there was the increase in the volume of import receipts from both the CIS countries - by 45.5 percent, and the non-CIS countries - by 25.9 percent.

Basic suppliers of goods were Russia (28.9 percent of imports), Kazakhstan (22.6 percent), Uzbekistan (5.4 percent), China (8.5 percent), USA (5.9 percent), Germany (5.5 percent), and Turkey (3.8 percent). The basic volume of imports is represented by such goods, as mineral fuel, natural gas, machines and transportation equipment, sugar, cast iron and steel, fabric, rubber tires, and medicaments.

**Box 1. Estimate of under-accounting of import of goods in accordance with data of "mirror" statistics and statements of Kyrgyz and foreign officials.**

Deviations in the volumes of foreign trade as registered by the national statistics of relevant countries reflect differences in accounting practices and one commodity flow that was not accounted by one of the parties. A counter-comparison of statistical data of Kyrgyzstan and its basic trading partners demonstrated the fact that discrepancies were brought down to a level of 10 percent of import of goods in Kyrgyzstan in 1999-2001. However, in the ensuing years this gap increased. At the same time, the most essential systematic differences in the reporting data refer to import of goods from China.

According to the IMF Directions of Trade Statistics for the 3rd quarter of 2004 and based on the data of the Chinese, import at f.o.b. prices from China to Kyrgyzstan in 2003 totaled US\$ 245 million, while the official NSC KR data shows it as totaling US\$ 78 million. There are much less discrepancies in the "mirror" statistics of trade with other countries.

The National Bank made an estimated adjustment of import of goods from China to Kyrgyzstan by US\$10 million in 2001, by US\$ 20 million - in 2002 and by US\$ 51 million in 2003. For 9 months of the current year the adjustment totaled US\$ 19 million. The rate of adjustment was determined based on the average deviations according to the "mirror" statistics of imports from the countries that are the basic partners of the Kyrgyz Republic (Russia, Kazakhstan, Uzbekistan, China, USA, Turkey, Germany).

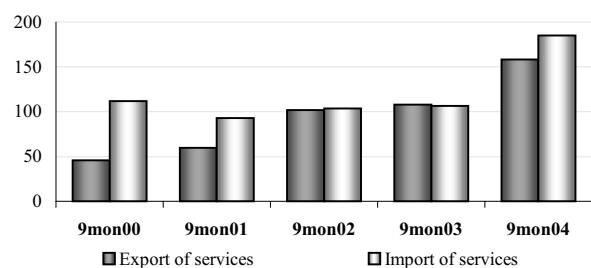

## Balance of International Services

For 9 months of 2004 the balance of international services developed as negative and totaled US\$ 26.9 million, while for 9 months of 2003 this indicator was positive and made US\$ 1.5 million.

One of the major reasons for the credit balance of international services was that of import development by 74 percent or US\$ 78.5 million, with export development by 46 percent that totaled US\$ 50 million in absolute terms. Growth of imports was significantly influenced by the increase in the indicator covered by the items "Trips" and "Transportation Services".

**Chart 3: Balance of international services**

(in millions of US dollars)

For 9 months of the accounting period the share of services under the item "Trips" was the largest one and totaled US\$ 58.7 million or 37 percent. This was due to the increase in the business or personal trips. As compared to the similar indicators of the last year, the services covered by the item "Trips" increased by 90.1 percent in the period under review (US\$ 27.8 million in absolute terms).

As before, one of the principal export items is still that of the transportation services, whose share was equal to 25 percent (US\$ 39 million), of which US\$ 25.5 million was the share of air transportation services.

The traditionally largest share in the structure of import is that of transportation services and trips, which totaled 120 US\$ million based on the outcome of nine months, having, in other words, increased as compared to the base period by US\$ 75.5 million. The volume of imports of railroad services increased by 133 percent and reached US\$ 47.4 million, while the total of motor services grew 3.2 times and reached US\$ 15.3 million. Expenses of residents reflected in the item "Trips" grew almost five times as compared to nine months of 2003 and totaled US\$ 38.8 million in 2004 versus US\$ 7.9 million in 2003 and it was caused both by more active business and personal trips abroad, and by improved registration in frontier regions.

The volume of technical assistance remained stable for the recent four years - at the level of US\$ 15.3 million.

On the whole, import of services for 9 months of 2004 grew by 74 percent as compared to the base period.

## Balance of Income

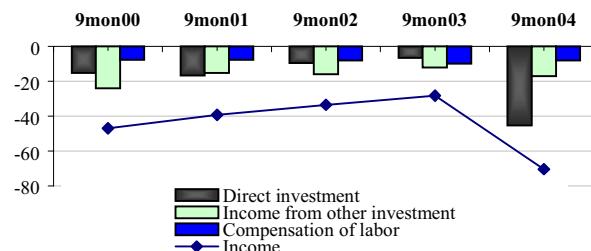

The credit balance of **Income** of the Kyrgyz Republic still showed an upward tendency in the period under review, thereby reflecting payments and receipts resulting from the use of inputs (labor and capital). The deficit of the item "Income" increased to US\$ 70.5 million versus US\$ 28.2 million for 9 months of 2003. The gap in the balance of income was 4.5 percent of GDP.

Its two-and-a-half increase was due to growth of payments to the account of income from direct investment, namely - the payments under the item "Reinvested Income". The credit balance of reinvested income in the period under consideration developed at the rate of US\$ 44.5 million, having thus exceeded the similar annual indicator of the previous year by 92.1 percent. This item is the largest component in the balance of income from direct investment and indicates the preference of enterprises to direct the greater part of their profit to expansion of their operations. The distributed profit in the period under consideration turned to be at the zero level, whereas for the period of nine months of 2003 it was US\$ 0.1 million. Accrued interest on loans mobilized by the enterprises of direct investment decreased, on the contrary, by 70 percent and totaled US\$ 0.9 million (US\$ 3 million for 9 months of 2003).

The debit balance of income from portfolio investment, including mainly the operations of commercial banks with foreign securities, decreased from US\$ 0.3 million to US\$ 0.1 million.

**Chart 4: Balance of Income**

(in millions of US dollars)

## I. RECENT BALANCE OF DEVELOPMENTS

The deficit of income in the item "Other Investment" increased by 41 percent and totaled US\$ 17.1 million (US\$ 12.1 million for 9 months of 2003) and its growth was conditioned by the increase in the payments of interest on loans by 53 percent, of which the share of the public sector was 75.8 percent. The net outflow of financial resources as payment of interest on the loans to the public sector of the economy developed at the rate of 17.9 US\$ million (13.7 US\$ million for the corresponding period of 2003) and on the loans to the private sector - US\$ 5.2 million (US\$ 1.2 million for the similar period of the last year). The volumes of accrued interest on the IMF loans remained at the same level as in the period under consideration in 2003 - at the rate of US\$ 0.5 million. Other income from other investment, including income from international operations of the NBKR, earned and paid interest on the loans, deposits and correspondent accounts with the commercial banks, as well as interest on the accounts of residents of the Kyrgyz Republic with the foreign banks and interest income from non-residents increased by 91.2 percent and totaled US\$ 6.5 million in the period under review (US\$ 3.4 million for the comparable period of the previous year).

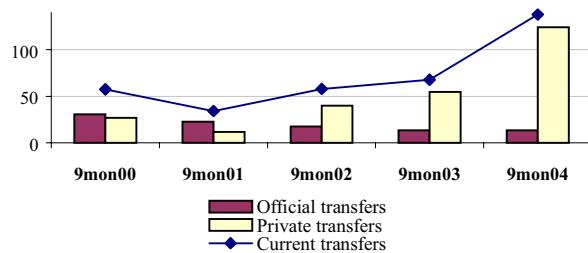

Remuneration of labor to the non-residents, temporarily mobilized in the economy of Kyrgyzstan decreased with respect to the similar period of the previous period by 17.3 percent. Of US\$ 8.1 million paid to the non-residents for 9 months of 2004 as remuneration of labor, 94 percent was paid to the non-residents hired under the Kumtor Gold Project.

### Balance of Current Transfers

Traditionally, the debit balance in the item "Current Transfers" totaled US\$ 137.8 million for 9 months

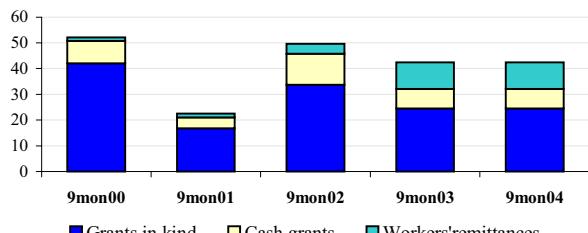

of 2004, having more than doubled the similar indicator of 2003. Such a significant increase was due to growth of the net inflow of current transfers of the private sector. For instance, the inflow of postal money transfers of the population grew by 13 percent, the transfers of individuals via the commercial banks increased by 80.6 percent, remittances of those working abroad via a system of transfers (Western Union, Anelik, Money Gramm, etc.) - by 157.2 percent, and grants as goods to the private sector - by 65 percent.

**Chart 5: Current Transfers**  
(in millions of US dollars)

The volume of official transfers received by general government grew by 3 percent. The inflow of commodity grants increased by 32.8 percent, the inflow of cash grants decreased by 14.1 percent. Membership fees paid by the Kyrgyz Republic to international organizations increased by 71.4 percent.

**Chart 6: Current Transfers**  
(in millions of US dollars)

## Capital and Financial Account

Based on the outcome for nine months of 2004, the **Capital and Financial Account** (in the analytic format of the balance of payments presentation) was in surplus of US\$ 54.8 million (its gap totaled US\$ 5.7 million in the similar period of 2003). At the same time, the surplus on the capital account was noted to have grown, while the financial account, as distinct from the base period, developed with the debit balance.

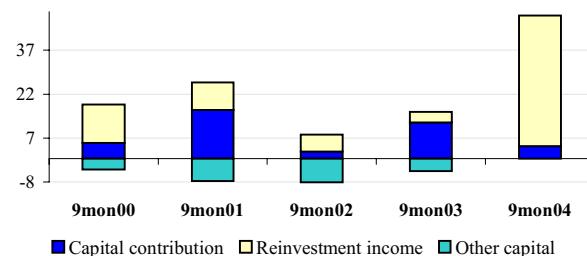

The credit balance of **the Capital Account** totaled US\$ 8 million. It was conditioned by the net outflow of transfers of migrants, which increased by 44.8 percent and totaled US\$ 30.7 million. At the same time, the inflow of grants in the republic as investment goods increased by 21.8 percent (the net inflow for the accounting period totaled US\$ 7.7 million).

The debit balance of **the Financial Account** for 9 months of 2004 totaled US\$ 62.9 million as compared to the credit balance on this account totaling US\$ 5.8 million for the corresponding period of 2003. At the same time, the financial account was characterized by the inflow of capital on direct and portfolio investment.

The net inflow of **Direct Investment** for the accounting period totaled US\$ 47.9 million, whereas in the comparable period of the previous year its inflow was registered at the rate of US\$ 11.6 million. Alongside with this, direct investment was noted to outflow and total US\$ 86.7 million, thereby reflecting the transactions on sale of part of the Kyrgyzaltyn shares. On the whole, the considered period was characterized by positive developments of direct foreign investment in the whole structure. For instance, the net inflow of financial resources invested in share capital totaled US\$ 1.3 million. The inflow of capital on reinvested income totaled US\$ 44.5 million, having thus increased by US\$ 41 million as compared to the base period. Direct investment under the item "Other Capital", accounting the transactions with debt instruments, developed the debit balance at the rate of US\$ 2.1 million and it is due to the excess of the counter-inflow of capital over the payments on debt instruments.

**Chart 7: Direct investment**

(in millions of US dollars)

The debit balance of **Portfolio Investment** was noted to decrease in the period under review. For 9 months of 2004 the net inflow of portfolio investment totaled US\$ 8.1 million, while in the comparable period of 2003 the balance of portfolio investment was 3 times more and totaled US\$ 24.3 million. This dynamics was due to the reduction of foreign liabilities by US\$ 16.1 million. At the same time, foreign assets of residents have almost not changed and totaled 8 US\$ million.

Growth of the world price of gold strengthened the tendency of the outflow of financial resources on **financial derivatives**, which are represented by the gold price hedging transactions. If the credit balance of financial derivatives for January to September 2003 totaled US\$ 16.7 million, the deficit for the similar period of the current year reached US\$ 20.5 million.

The net volume under the item "**Other Investment**", attracted to the republic totaled US\$ 59 million for 9 months of 2004, having thus increased by US\$ 33.9 million as compared to the corresponding period of the previous year. Its value developed as a result of growth of foreign assets of residents of the Kyrgyz Republic, with their foreign liabilities having decreased essentially.

For January to September of 2004, the foreign assets of residents increased by US\$ 8.7 million and totaled US\$ 116.3 million. At the same time, almost all of the items showed the increase, excluding the accounts receivable, whose volume decreased almost six times as compared to nine months of 2003. The volumes of foreign assets on the accounts of companies abroad increased, on the contrary, and totaled US\$ 35 million.

The net inflow of capital on the foreign liabilities decreased by 31 percent and totaled US\$ 57 million. As a result of transactions with cash and deposits, the major decline was noted with respect to the foreign liabilities of commercial banks, whose volume decreased by US\$ 33.8 million (US\$ 55.3 million in

## *1. RECENT BALANCE OF DEVELOPMENTS*

---

the base period). The reduction was also noted with respect to trade loans by US\$ 11.9 million, whereas in the corresponding period one year earlier arrears on the trade loans grew by US\$ 0.1 million. At the same time, in the period under review the net outflow of loan proceeds decreased and it was mainly due to the increase in the loans to the public sector of the economy. For instance, for 9 months of 2004 the loans were received as totaling US\$ 61.7 million, having thus exceeded the same indicator in the comparable period of the previous year by 22.4 percent. Amortization of loans to the public sector did not change significantly and totaled US\$ 25.5 million. On the other hand, the loan resources were noted to outflow to the private sector in the period under review due to the significant increase in the volume of amortization - from US\$ 0.3 million to US\$ 18.2 million.

On other liabilities, the financial resources were noted to inflow in the period under review and totaled US\$ 14.8 million.

For 9 months of 2004 the item "**Errors and Omissions**" developed with the debit balance at the rate of US\$ 113.4 million and it speaks for the under-accounting of transactions related to the inflow of capital to the republic.

Thus, for January to September of 2004 **the balance of payments of the Kyrgyz Republic** developed as positive of US\$ 96 million. At the same time, the volume of international reserves increased by US\$ 110.9 million and totaled US\$ 132.5 million at the end of the accounting period providing for 5.3-month coverage of import of goods and services.

Note:

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated.

Short-term investments are investments in financial assets, with maturity of one year or less than one year, pursuant to a contract, or paid as short notice.

**Table II.1: Sources of Information Used by the National Bank  
for Compilation of the Balance of Payments of the Kyrgyz Republic**

Items of the Balance of Payments	Sources of information	Contents of information
<b>Current account</b>		
<b>Commodities</b>		
Export of goods (f.o.b.) export	NSC	data on export of goods (f.o.b.) based on SCI data and enterprises
commodities purchased in ports	NSC	data on export of bunker fuel based on reports of enterprises
nonmonetary gold	NSC	data on export of the nonmonetary gold based on SCI data
Import of goods (f.o.b.) import (c.i.f.)	NSC	data on import of goods (c.i.f.) based on SCI and enterprise data
value adjustment	NSC, NBKR	NBKR estimate of the share of transport and insurance services in import at c.i.f. prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises
<b>Services</b>		
Transportation services	NSC, CB	data on enterprise reports and the NBKR assessment of the share of transportation costs in import at c.i.f. prices based on surveys of enterprises; data based on banking statistics on transportation services
Travels	NSC	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	MTC	data on international communication services
Construction	NSC, enterprises	data of enterprises enjoying services of non-resident construction companies and from construction organizations rendering services abroad; data from some large enterprises
Insurance services	NSC, enterprises, CB	NBKR assessment by the share of costs in import at c.i.f. prices on the basis of surveys of enterprises; data from enterprises and banking statistics
Financial services	NBKR, CB	NBKR data on rendering and receiving of financial services; data from banking statistics
Computer and information services	CB	data on information and computer services based on banking statistics
Government services	MFA, CB	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR

**Table II.1: (continued)**

<b>Items of the Balance of Payments</b>	<b>Sources of information</b>	<b>Contents of information</b>
Business services including technical assistance	NSC, CB, enterprises IMF, MF	data on other business technical services, collected from enterprises; data from some large enterprises estimates on technical assistance being received, data of organizations, which incarnate investment projects
Other services	NSC, CB	data on other services collected from enterprises; data on other services from banking statistics
<b>Income</b>		
Employee compensation	NSC, CB, enterprises	data of enterprises on non-resident employee compensation, paid to residents going abroad; data from banking statistics on transfers abroad
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	data on income of nonresidents earned from investment in the KR securities; data from banking statistics on transactions with securities
Other investment income		
Interest on loans		
Monetary authorities	NBKR	data on interest on IMF loans
General government	MF, NBKR, enterprises	data on interest on credits to the public sector; data from enterprises on interest on Government-guaranteed loans
Banks	CB	data of banking statistics on interest on interbank loans
Other sectors	Enterprises	data on interest on loans to the private sector
Other investment income	NBKR, CB, enterprises	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB and enterprises from assets abroad
<b>Current transfers</b>		
Humanitarian aid	NSC, enterprises	data on rendered humanitarian aid based on SCI data
Technical assistance	IMF	estimates of technical assistance being received
Other grants	NBKR	data on grants in cash
Contributions to international organizations	MF	data on payments made to international and CIS organizations
Workers' remittances	MT&C, CB	data on household postal-telegraph transfers abroad and from abroad

**Table II.1: (continued)**

<b>Items of the Balance of Payments</b>	<b>Sources of information</b>	<b>Contents of information</b>
<b>Current and financial account</b>		
<b>Capital transfers</b>		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Forgiveness of debt	Enterprises	data of enterprises on debt service, to non-residents
<b>Direct investment</b>		
Abroad	CB	data from banking statistics on residents' direct investment abroad
To the Kyrgyz Republic	NSC, CB, enterprises	data on direct investment collected from joint ventures and foreign enterprises; data from banking statistics on direct investment into the banking sector; data of some large joint ventures
<b>Portfolio investment</b>		
Promissory notes	NBKR, CB, SCSM	data on purchase and redemption of the KR securities by non-residents; data from banking statistics on transactions with securities
<b>Financial derivatives</b>		
	Enterprises	data of enterprises on transactions with financial derivatives
<b>Other investment</b>		
Assets		
Money in cash and deposits		
Banks	CB	data from banking statistics on foreign assets of commercial banks
Other sectors	Enterprises	data on balances of resident enterprises on accounts of banks abroad
Trade loans	NSC	data on mutual settlements of enterprises (debtors' indebtedness)
Other assets		
Monetary authorities	NBKR	data on the NBKR foreign assets not included in reserves
General government	MF	data on payments to international organizations
Liabilities		
Money in cash and deposits		
Banks	CB	data from banking statistics on foreign liabilities of commercial banks
Trade loans	NSC	data on mutual settlements of enterprises (debtors' indebtedness)
Loans		
Monetary authorities	NBKR	data on IMF loans
General government	MF, NBKR, enterprises	data on loans received/repaid by the public sector or under guarantee of the Government
Banks	CB	data from banking statistics on loans received by commercial banks
Other sectors	Enterprises	data on loans received/repaid under no guarantee of the Government
Overdue debts	MF, CB, enterprises	data on overdue payments
Reserve assets	NBKR	data on international reserves and their structure
