КЫРГЫЗ БАНКЫ

In May 10, 2023, the National Bank of the Kyrgyz Republic introduced into circulation the new banknotes series of the national currency in denominations of 20, 50, 100, 200, 500, 1000 and 5000 Som.

The new banknotes devoted to the 30th Anniversary of the national currency that reflects establishment of the banknotes: from the coupon notes with the simple security features up to the banknotes with a high-level security features and enhanced design.

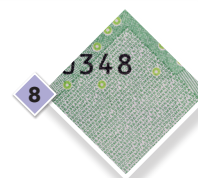

3. SEE-THROUGH IMAGE

Look for the patterns on the front and reverse sides of the banknote complete a pattern of diamonds when held to the light.

7. IRIDESCENT STRIPE

The diamond-shaped logo of the National Bank and the denomination can be seen when the note is tilted.

8. MICROPRINTING

Examine the banknote closely to reveal hidden microtext and images of flora and fauna hidden on the front and reverse of the banknote.

The main concept design of the banknotes of the national currency – the reflection of the historical and cultural heritage of Kyrgyzstan remained unchanged. Portraits of representatives of art and culture have been preserved on the front side and sights of the republic on the reverse side of the banknotes.

The main color and size of banknotes also remained unchanged. The new Kyrgyz banknotes contain three levels of security features that provide reliable protection to the public against counterfeiting.
