Balance of Payments of the Kyrgyz Republic

"Balance of payments of the Kyrgyz Republic" is issued by the National Bank of the Kyrgyz Republic. The legislative basis for the balance of payments is the Law of the Kyrgyz Republic as of December 16, 2016 No.206 "On the National Bank of the Kyrgyz Republic, banks and banking activity". This document reflects last tendencies in external sector development and shows statistical data on the balance of payments, external trade, international reserves, external debt and international investment position, as well as construction methods of balance of payments and informational database. This document is published 4 times a year in January, May, July and October and has 3 language versions: Kyrgyz, Russian and English.

This publication provides:

- ***the revised data on direct investments for 2016;***
- ***additional estimates of the National Bank of the Kyrgyz Republic on the foreign trade operations for exports;***
- ***the data on the international reserves of the National Bank of the Kyrgyz Republic were revised according to the IMF methodology, thereunder only the assets in convertible currencies were included in the international reserve assets. The assets in other currencies were presented as other assets in "other investments" item;***
- ***the reference period, which is used for calculation of the REER (real effective exchange rate) index, was revised;***
- ***preliminary version of the analytical form of the balance of payments of the Kyrgyz Republic compiled on the basis of BPM 6 methodology was provided.***

Last day for update of data for the present publication is July 20, 2017.

Annotation symbols and notes:

- ... means the absence of data;
- means, that indicators/ratios are equal to 0 (zero) or insignificant;
- is set between years or months (e.g., 1994-1996 or January-June) and means, that all years and months are covered by the shown dates.

Deviations in last digits may occur because of rounding numbers when summing up.

In regard with the possible changes in accounting methods or historical data, which are used in the given document, correction of earlier published data is acceptable. Therefore, 10 years period can be accounted as "open period".

CURRENT STATUS OF THE BALANCE OF PAYMENTS

Chart 1. Current account*(in percent of GDP²)*

According to the results of the first quarter of 2017, the current account deficit¹ decreased amid increasing volume of transfers and formed with negative balance at the level of 9.7 percent to GDP² or USD 86.4 million.

TRADE BALANCE

According to the results of the first quarter of 2017, increase in the deficit of trade balance was due to a more significant growth of goods' imports as opposed to exports.

Chart 2. Trade balance of the Kyrgyz Republic*(in percent of GDP)*

In January-March 2017, **trade balance**¹ of the Kyrgyz Republic in FOB prices was formed with negative balance in the amount of USD 392.7 million having increased by 6.9 percent as compared to the similar indicator of 2016. Meanwhile, in the reporting period, the indicator to GDP ratio made 31.4 percent.

The external trade turnover in FOB prices increased by 19.1 percent and constituted USD 1,258.2 million compared to January-March 2016.

Export of goods in FOB prices constituted USD 432.7 million having increased by 25.6 percent as compared to the indicator of January-March 2016. In the reporting period, **the export excluding gold** constituted USD 282.2 million having increased by 15.1 percent as compared to the indicator of 2016.

The export excluding gold and the NBKR additional estimates increased by 15.7 percent and constituted USD 275.3 million.

¹ Hereinafter the information is submitted including additional estimates of the NSC KR according to sample survey of the mutual trade with the EAEU countries and additional estimates of the NBKR on export, unless another reference is given.

² Hereinafter the indicators of GDP ratios are calculated on the basis of sliding annual data, which include the last four quarters.

Note: NSC data in FOB prices

¹ Including the additional estimates of the NSC on agricultural products distributed by months according to the NBKR estimates and the NSC sample survey of individuals on mutual trade with the EAEU countries (since the 3rd quarter)

² Export of on board stock

In terms of aggregate commodity structure of export in the Kyrgyz Republic, the products of **processing industry** and **agriculture** traditionally dominate. In January-March 2017, the increase of total value was observed on these categories of goods due to the growth of production output in the metallurgical, textile and garment industry. In particular, in January-March 2017 compared to the same period of 2016, the increase in production of basic metals and finished metal products by 50.1 percent was due to the growth in production of basic metals³. This factor resulted in rise of the value of gold exports by 51.5 percent. The increase in the value of gold exports was due to the growth of physical volume of supplies and average prices by 44.3 percent and 5.0 percent⁴ respectively. In general, the growth in the value was observed on all major goods items of the group.

³ "Social and Economic State of the Kyrgyz Republic (January-March 2017)", NSC KR.

⁴ In January-March 2017, the average world price for 1 Troy ounce of gold was USD 1,182.6, which is by 3.1 percent higher than the price level of January-March 2016; source: Reuters.

* NSC data in FOB prices

The increase in the output of the garment industry by 31.9 percent resulted from growth in production of women's, men's and children's outer clothing⁵. As a result, exports of clothes and clothing accessories increased by 41.5 percent and constituted USD 41.6 million. The most significant in the volume of supplies was observed on the item "articles of textile fabrics, knitted or crocheted for men and boys" (by USD 11.3 million).

* NSC data in FOB prices

According to the results of the first quarter, the structure of foreign trade by groups of countries remained without significant changes: 63.2 percent fell on the non-EAEU countries and 36.2 percent – the EAEU countries. The increase in gold exports resulted to growth in the share of Switzerland by up to 56.4 percent in the total exports to the non-EAEU countries. Turkey and China were other significant trading partners among non-EAEU countries. Ores, concentrates of precious metals and agricultural products were mainly supplied to these countries.

The products of textile and agricultural industries are primarily exported from the Kyrgyz Republic to the EAEU countries. The most significant volumes of supplies fell on the Russian Federation and the Republic of Kazakhstan.

* NSC data in FOB prices, including NSC additional estimates on agricultural products and NSC sample survey of individuals on mutual trade with EAEU countries (since the 3rd quarter of 2015), excluding NBKR additional estimates on export.

¹ in percent to total of each good position

Import of goods in FOB prices according to the results of January-March 2017 constituted USD 825.5 million and increased by 16.0 percent as opposed to the same indicator of 2016.

In the reporting period, supplies of goods from the group "machines and transportation equipment" increased by 52.4 percent and constituted USD 201.5 million. In the goods structure the most significant increase was observed on the item "motor cars and other motor vehicles principally designed for the transport of persons" and "electrical apparatus for line telephony or line telegraphy".

* NSC data in CIF prices

The value of imported manufactured goods classified by material increased by 52.4 percentage points and constituted USD 201.5 million. In the goods structure of the section, growth was observed in the item "woven fabrics of man-made textile materials" (increase by USD 11.3 million) and "iron and steel" (increase by USD 28.3 million).

In general, the value increased on the majority of goods in this group due to growth of the physical volume of imports with the decrease of the import contract prices.

* NSC data in CIF prices

In January-March 2017, import of various manufactured products grew by USD 20.3 million reaching USD 186.7 million. This dynamics was primarily conditioned by growth in imports of clothes, clothing accessories and shoes from China. Insignificant changes in the value of imports were observed on other goods items of the section.

* NSC data in CIF prices

In January-March 2017, in the **goods structure** of import insignificant decline of supplies was observed on the goods items of the section "mineral fuel, lubricants, and oils". Petroleum products were the most significant goods item in this group. In the reporting period, the import value of the petroleum products remained almost at the level of the same indicator of 2016. At the same time, insignificant decrease in imports of the petroleum products was due to growth of import prices by 48.5 percent with decline in physical volumes by 32.9 percent.

* NSC data in CIF prices

The specific weight of the non-EAEU countries constituted 58.4 percent in the **geographic structure** of import. The largest volume of supplies from the non-EAEU countries fell on China (53.7 percent), USA (10.0 percent) and Turkey (8.9 percent). Growth of the supplies of fabrics, clothes, shoes and electric apparatus for telephony was observed in the structure of goods imported from the non-EAEU countries. At the same time, imports of such goods as "motor vehicles" and "iron and steel" decreased.

The specific weight of the EAEU countries in the total volume of imports constituted 41.6 percent (43.0 percent in the first quarter of 2016). Fuel and energy products still prevail in the goods structure of imports from the EAEU countries. The Russian Federation was the main supplier of energy products. Consumer goods and construction materials were also supplied from the EAEU countries besides oil products.

BALANCE OF INTERNATIONAL SERVICES

Due to the growth of the volume of external trade activity of the Kyrgyz Republic, the turnover of international services increased.

Chart 3. External service and goods trade*

(in millions of USD)

* NSC data, including additional estimates of NBKR and NSC

In the reporting period the **export of services** constituted USD 171.7 million, which corresponds

Chart 4. Balance of international services

(in percent of GDP)

to 39.7 percent of export of goods. **Import of services** was in the amount of USD 202.1 million, which constituted 22.9 percent of import of goods.

According to the results of the first quarter of 2017, the turnover of international services increased by 3.4 percent and constituted USD 373.8 million.

According to the results of the first quarter of 2017, **balance of international services** was negative and constituted USD 30.3 million against negative balance in the amount of USD 46.6 million in the corresponding period of 2016. At the same time, there was a decrease in the import of services by 0.9 percent, whereas the volume of services provided by the residents of the Kyrgyz Republic to non-residents increased by 9.2 percent.

In the first quarter of 2017, the main services as before were travels, transport and business services, which in total constituted 81.9 percent of the turnover of international services.

According to the results of the reporting quarter, the balance of the item "travels" was positive and amounted to USD 5.9 million against negative balance of USD 12.3 million in the same period of 2016.

In the reporting period, balance of transport services was found negative and

constituted USD 49.6 million, which is by 28.8 percent higher than in the first quarter of 2016. At the same time, there was an increase in the export of transport services by 12.8 percent (caused by an increase of other transport services), whereas, the volume of import transactions increased by 20.8 percent (due to rail transport services).

INCOME

Dynamics of the item "income" in the reporting period was defined mainly by the change in the volume of direct investment income.

According to the results of the first quarter of 2017, the balance of the item "income" was found

negative in the amount of USD 56.3 million, which is by 22.6 percent lower than the similar indicator of 2016. This tendency is mainly a result of reduction in the volume of distributed income of the resident-entities in the form of dividends in favor of foreign direct investors from USD 34.2 to USD 1.7 million. Volume of re-invested income increased and constituted USD 40.9 million.

In the reporting period, the volume of interest payments on the previously received loans decreased insignificantly and amounted to USD 16.2 million. The volume of other incomes received by the residents of the country on other investments in the first quarter of 2017 increased and constituted USD 6.8 million. As a result, deficit of the item "incomes on other investments" decreased by 56.8 percent (to USD 9.3 million).

TRANSFERS

Inflow on the item "current transfers" increased, which has become the result of increase in the net inflow of remittances of labor migrants.

Positive balance of **current transfers** according to the results of the first quarter of 2017 constituted USD 393.1 million having increased as compared to the similar period of 2016 by 29.7 percent. **Official and private transfers** (other sectors) made the main impact on the current transfer account.

In the structure of private transfers, as before, the money transfers of migrant workers have the main value, the specific weight of which in the gross volume of private transfers constitute 99.5 percent. According to the results of the first quarter of 2017, increase in the net inflow of money transfers was due to the rise in the gross inflow by 47.8 percent, meanwhile, the outflow of money transfers increased by 23.7 percent.

Table 11. Structure of workers' remittances*

(millions of USD)

	I'13	I'14	I'15	I'16	I'17
1.1 Workers' remittances	386.9	349.8	219.1	253.7	392.1
1.1.1 Inflow	460.6	446.4	304.7	325.5	481.0
of which:					
<i>Inflows through transfer systems</i>	423.0	412.6	283.7	301.8	444.5
<i>Transfers of individuals through commercial banks¹</i>	1.6	1.3	0.9	0.5	0.6
<i>Postal populations' remittances</i>	0.8	0.6	0.3	0.1	0.3
<i>Estimates of NBKR²</i>	35.2	31.8	19.9	23.1	35.7
1.1.2 Outflow	-73.7	-96.6	-85.6	-71.8	-88.9

* According to NBKR data including estimates

¹ Remittances exceeding USD 3000 are not taken into account

² Additional estimation coefficient of 10% is used for assessing remittances which migrants inflow in cash

Money transfer systems⁶ remain the main mode of the of labor migrants' remittances to the country. In the first quarter of 2017, the net volume of funds received through money transfer systems constituted

Chart 5. Balance of remittances and export
(in percent of GDP)

USD 444.5 million⁷, which is by 47.3 percent higher than the similar indicator of 2016. The geographic structure of money transfers remains almost unchanged. According to the results of the reporting period, the main share of money transfers was received from the Russian Federation (97.4 percent). In the structure of transfers made from the Kyrgyz Republic, the prevailing specific weight also falls on the Russian Federation (98.3 percent).

Remittances remain the main source of financing of trade deficit. The balance of remittances still covers net export of consumer

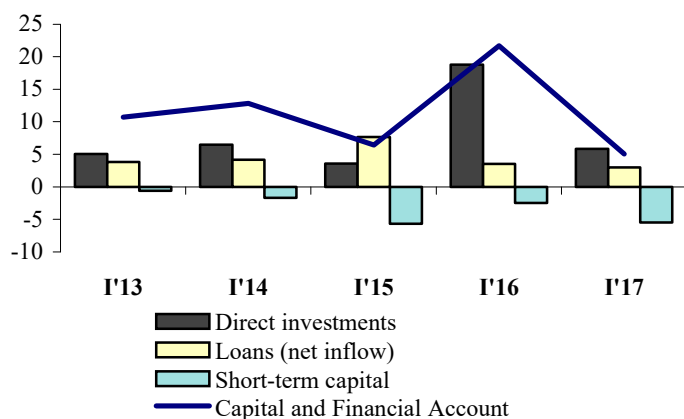

goods, which in turn was formed with a negative value of USD 208.1 million.

In the first quarter of 2017, the balance of current transfers in the **sector of state governance** was formed negative in the amount of USD 0.8 million, against positive value in the amount of USD 40.1 million in the same period of 2016. Decrease in inflows of official transfers was due to the reduction in the volume of grants received by the state sector. In the reporting period, the volume of paid membership fees to the international organizations increased by 25.3 percent and constituted USD 1.6 million.

CAPITAL AND FINANCIAL TRANSACTIONS ACCOUNT

Reduction in the positive capital and financial account was mainly due to decline in the net inflow on item "direct investments".

Chart 6. Capital and Financial Account
(in percent of GDP)

According to the results of the first quarter of 2017, **the capital and financial account** was formed with a positive balance in the amount of USD 87.5 million, which is by USD 383.0 million lower than the corresponding indicator of 2016.

The balance of **the capital account** was formed positive in the amount of USD 49.8 million, which is by 2.7 percent higher than the level achieved in the first quarter of 2016.

Financial account according to the results of the first quarter of 2017 was formed with a positive balance in the amount of USD 37.7 million, which is by USD 384.3 million lower than in January-March 2016. The

financial account experienced major impact of reduced inflow of capital on the items "direct investments" and "other investments".

⁶ Anelik, Blizko, Contact, Migom, MoneyGram, Western Union, Unistream, Zolotaya Korona, Leader, Bystraya Pochta (Fast Post), Allure and other money transfer systems and remittances via Kyrgyzpochtasy Public Enterprise.

⁷ Excluding the NBKR additional estimates.

Balance of the item "**direct investments**" was formed negative and constituted USD 48.5 million⁸ in the reporting period as opposed to positive value in the amount of USD 134.8 million according to the results of three months of 2016.

According to the results of the first quarter of 2017, the net volume of funds attracted to the country on the item "**other investments**" was USD 90.6 million. Positive balance of this item was formed under the influence of a decrease in the residents' foreign assets and an increase in the liabilities to the non-residents.

In January-March 2017, the assets of the residents decreased by USD 20.4 million. The most significant decrease was observed in the assets of the residents deposited on their accounts in the foreign banks (by USD 29.2 million). At the same time, the volume of accounts receivable increased by USD 8.8 million. As of the end of March 2017, in total, more than 75.0 percent of the gross volume of accounts receivable fell on the entities of the enterprises that provide supply of electricity and gas, processing industry, as well as the organizations that deal with the professional, scientific and technical activity. In the reporting period, the increase in the residents' assets deposited on their accounts in the foreign banks made USD 9.4 million.

The liabilities to the non-residents increased mainly due to the growth of gross inflow of loans to the state sector by USD 37.9 million. At the same time, the decrease was observed in the volume of private sector payments for previously received loans, meanwhile, the volume of payments for servicing the loans of the state sector remained at the level of the same period of 2016. As a result, the net inflow of loans in the reporting period was positive in the amount of USD 42.4 million.

In the reporting period, the volume of accounts payable of resident entities increased by USD 35.0 million against negative value in the amount of USD 16.3 million in January-March 2016. In general, the prevailing specific weight in the total volume of accounts payable fell on the enterprises of mining industry, the organizations that deal with wholesale and retail trade, the enterprises of processing, information and communications sector. These sectors constitute 80 percent of total loan debts.

According to the results of the first quarter of 2017, **the overall net balance of payments** was formed negative in the amount of USD 28.0 million.

The balance of the item "**Errors and omissions**", taking into account the additional estimates of the National Bank of the Kyrgyz Republic, was formed negative in the amount of USD 29.1 million. The volume of the international reserve assets⁹ as of March 31, 2017 constituted USD 1,774.7 million, which covered 3.9 months¹⁰ of the future import of goods and services.

⁸ Including the NBKR estimates

⁹ In accordance with the IMF methodology, the international reserve assets comprise the assets only in convertible currencies.

¹⁰ For reference: the volume of gross international reserves covers 4.5 months of future imports of goods and services.

Table of the Balance of Payments of the Kyrgyz Republic according to the 6th Edition of the Balance of Payments and International Investment Position Manual

Currently, the balance of payments statistics is compiled by the National Bank of the Kyrgyz Republic in accordance with the requirements of the International Monetary Fund's Balance of Payments Manual, the fifth edition (IMF, 1993). However, in order to meet the new international standards, the National Bank takes measures on compiling the external sector statistics based on the IMF's new methods – the Balance of Payments Manual, the sixth edition (hereinafter referred to as the BPM 6).

This box provides the users with a preliminary version of the analytical form of the balance of payments of the Kyrgyz Republic compiled on the basis of BPM 6 methodology.

Given that the BPM 6 maintains succession with the methodology of the fifth edition, the balance of payments statistics, which are based on the methods of the fifth edition, generally, remain comparable with the data compiled based on the new methods. At the same time, the meaning of the balance of payments accounts changed as some items of the balance of payments were regrouped in accordance with the BPM 6.

The presentation form of the balance of payments statistics, formerly based on the credit (plus) and debit (minus) entries was changed in the provisional version of the balance of payments. Credit and debit operations are registered with a sign "+" in the current account and the capital account. Meanwhile, the balance of the corresponding items (goods, services, primary income, and secondary income) is defined as a difference between the credit and debit.

The notions "net acquisition of financial assets" and "net incurrence of liabilities" are used instead of "assets" and "liabilities" in the financial account. Net acquisition of assets is equal to the increase in assets after deduction of the decrease in assets. Net incurrence of liabilities is equal to the increase of liabilities after deduction of the decrease in the liabilities. Change with a sign "+" indicates the increase in the assets or liabilities, and change with a sign "-" indicates the decrease in the assets or liabilities. In accordance with the fifth edition of the Balance of Payments Manual, the increase in the asset was registered with a sign "-", the decrease in the assets – with a sign "+".

Statistical discrepancies (the item "Errors and omissions") are obtained as a residual value that brings into balance the positive or negative balances resulting from summing the operations registered in the balance of payments. A positive value of statistical differences indicates the capital inflows into the country or export of goods, which are statistically unrecorded. A negative value indicates the capital outflows from the country or imports of goods, which are statistically unrecorded.

Full data compiling of the balance of payments and the international investment position in accordance with the BPM 6 methods shall be implemented in 2017.

Comment:

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated

Short-term investment are investments in financial assets, with maturity of one year or less than one year, pursuant to contract, or paid as short notice

Table II.1. Sources of Information Used by the National Bank for Compilation of the Balance of Payments of the Kyrgyz Republic

Items of the Balance of Payments	Sources of information	Contents of information
Current account		
Commodities		
Export of goods (FOB)		
export	NSC	
commodities purchased in ports	NSC	
nonmonetary gold	NSC	
Import of goods (FOB)		
import (CIF)	NSC	
value adjustment	NSC	NSC estimate of the share of transport and insurance services in import at CIF prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises according to form 1-services
Services		
Transportation services	NSC, CB	estimates NSC of the share of transportation costs in import at CIF on the basis of inspection of the enterprises
Travels	NSC	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	NSC, MTC	
Construction	CB	
Insurance services	NSC, enterprises, CB	NBKR assessment by the share of costs in import at CIF prices on the basis of surveys of enterprises; data from enterprises and banking statistics
Financial services	NBKR, CB	
Computer and information	CB	
Government services	MFA, CB	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR
Business services	NSC, CB, enterprises	data on other business technical services, collected from enterprises according to reporting form 8VES-services; data from some large enterprises
including technical assistance	IMF, MF	the estimated data
Other services	NSC, CB	data on other services collected from enterprises according to reporting form 8 VES-services; data on other services from banking statistics
Income		
Employee compensation	NSC, CB, enterprises	
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	
Other investment income		
Interest on loans		
Monetary authorities	NBKR	
General government	MF, NBKR	
Banks	CB	
Other sectors	NSC	
Other investment income	NBKR, CB	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB from abroad assets and liabilities

Table II.1. (continued)

Items of the Balance of Payments	Sources of information	Contents of information
Current transfers		
Humanitarian aid	NSC, enterprises	
Technical assistance	IMF	the estimated data
Other grants	NBKR	
Contributions to international	MF	
Workers' remittances	MT&C, CB, NBKR	
Current and financial account		
Capital transfers		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Debt forgiveness	Enterprises, MF	
Direct investment		
Abroad		
To the Kyrgyz Republic	NSC	data on direct investment collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment into the banking sector; data of some large joint ventures
Portfolio investment		
Promissory notes	NSC, CB NSC, NBKR, CB, FMSRS KR	
Financial derivative		
Other investment		
Assets
