## ***Balance of Payments of the Kyrgyz Republic***

“Balance of payments of the Kyrgyz Republic” is issued by the National Bank of the Kyrgyz Republic. The legislative basis for the balance of payments is the Law of the Kyrgyz Republic as of December 16, 2016 No. 206 “On the National Bank of the Kyrgyz Republic, banks and banking activity”. This document reflects the last tendencies in external sector development of the economy and shows statistical data on the balance of payments, external trade, international reserves, external debt and international investment position, as well as construction methods of balance of payments and informational database. This document is published 4 times a year in February, June, August and November and has 3 language versions: Kyrgyz, Russian and English.

*This document contains the final data of the National Statistical Committee of the Kyrgyz Republic on foreign trade for 2019 in accordance with the annual data revision procedure.*

**Last day for update of data for the present publication is October 20, 2020.**

### ***Annotation symbols and notes:***

- ... means the absence of data;
- means, that indicators/ratios are equal to 0 (zero) or insignificant;
- is set between years or months (e.g., 1994-1996 or January-June) and means, that all years and months are covered by the shown dates.

Deviations in last digits may occur because of rounding numbers when summing up.

In regard with the possible changes in accounting methods or historical data, which are used in the given document, correction of earlier published data is acceptable. Therefore, 10 years period can be accounted as “open period”.

## CURRENT STATUS OF THE BALANCE OF PAYMENTS

Chart 1. Current account

(in percent of GDP)

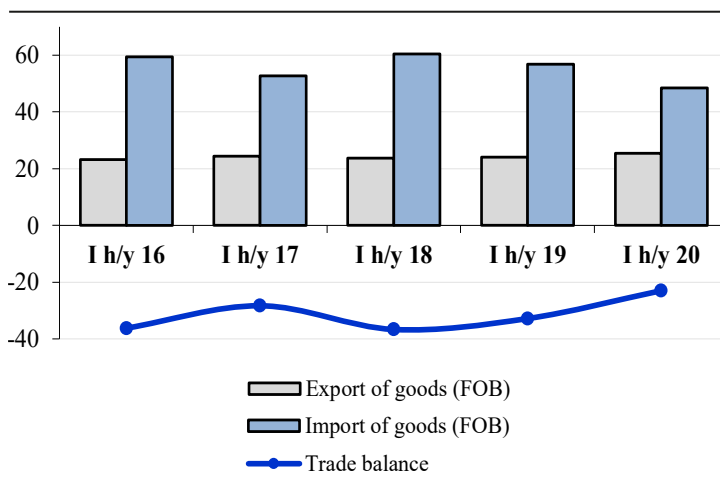

At the end of the first half of 2020, the current account balance was formed positive in the amount of USD 218.7 million (3.5 percent of GDP) under the influence of global trends resulted from the spread of the COVID-19 coronavirus infection. The current account was characterized by a reduction in imports of goods and services, as well as a decrease in the inflow of current transfers and income payable to non-residents.

TRADE BALANCE<sup>1</sup>

In the first half of 2020, a decrease in imports, amid an increase in gold exports, conditioned a reduction of the trade balance deficit.

Chart 2. Trade balance of the Kyrgyz Republic

(in percent of GDP)

According to the results of the first half of 2020, the negative **trade balance** of the Kyrgyz Republic in FOB prices amounted to USD 530.4 million, having decreased by 58.5 percent compared to the same indicator in the first half of 2019.

In the reporting period, **the external trade turnover** in FOB prices amounted to USD 2,526.5 million, having decreased by 21.2 percent compared to the first half of 2019.

In the first half of 2020, **exports of goods in FOB prices** increased by 3.7 percent and amounted to USD 998.1 million. In the reporting period,

**exports excluding gold** amounted to USD 460.0 million, having decreased by 18.9 percent. **The export excluding gold and the NBKR additional estimates** decreased by 19.4 percent and amounted to USD 435.7 million.

<sup>1</sup> Hereinafter, information is indicated being generated on the basis of the database of declarations for goods and the NSC additional estimates on a sample survey of mutual trade with the EAEU countries and the National Bank additional estimates on exports, unless otherwise provided.

Note: NSC data in FOB prices

<sup>1</sup> Including the results of the NSC sample survey of individuals on mutual trade with EAEU countries, as well as NBKR additional estimates on export.

<sup>2</sup> Export of on board stock.

The products of the industrial and agricultural sectors traditionally made the basis of the exports commodity structure in the first half of 2020.

In the reporting period, an increase in the production output of basic metals and finished metal products by 9.0 percent was due to the growth in the production of basic metals<sup>2</sup>. In January-June 2020, gold exports increased by 36.0 percent and constituted USD 538.1 million. The aforementioned dynamics was the result of growth in the cost of supplies by 25.5 percent amid a decrease in the physical volume of gold supplies by 7.6 percent<sup>3</sup>.

In the reporting period, there was also an increase in exports of silver, platinum and other platinum group metals (by USD 3.8 million), ores and precious metal concentrates (by USD 1.4 million). At the same time, there was a decrease in exports of non-ferrous base metal waste and scrap (by USD 34.1 million). The dynamics in the value of these goods was due to a change in the physical volume and the average cost of supplies.

<sup>2</sup> “Social and Economic State of the Kyrgyz Republic (January-June 2020)”, NSC KR.

<sup>3</sup> According to the results of the first half of 2020, the average world price for 1 Troy ounce of gold was USD 1,642.3, which is by 25.7 percent higher than the price level of the first half of 2019, source: Reuters.

In January-June 2020, there was a decrease in the output of the textile sector, in the production of clothes and footwear, leather and other leather goods by 15.7 percent<sup>4</sup>. As a result, the exports of the main products of garment production decreased by 20.1 percent and amounted to USD 35.9 million. The decrease was mainly due to a reduction in exports on such commodity items as “women’s and girls’ knitted or crocheted goods” (by USD 13.2 million), “women’s and girls’ knitted or crocheted goods” (by USD 7.3 million) and “men’s and boys’ knitted or crocheted goods” (by USD 6.4 million). At the same time, there was an increase in the value of exports on such commodity item as “articles of apparel, of textile fabrics, whether or not knitted or crocheted” (by USD 16.4 million). Changes on other commodity items did not have a significant effect on the dynamics of exports of apparel production.

\* NSC data in FOB prices, including the results of the NSC sample survey of individuals on mutual trade with EAEU countries, excluding NBKR additional estimates on export

<sup>1</sup> In the first half of 2019, the volume of exports in physical terms increased significantly due to growth in the supplies of honey bees to Russia.

The share of the non-EAEU countries (75.1 percent) prevailed in the geographic structure of exports. In the reporting period, goods were mainly exported to Great Britain (74.0 percent of total exports to the non-EAEU countries). In the reporting period Uzbekistan, Turkey and China were other significant partners of the Kyrgyz Republic from the non-EAEU countries. The goods of the processing industry and agricultural products were mainly supplied to these countries.

The aggregate share of the EAEU countries in the total exports of goods amounted to 24.9 percent. The commodity structure of exports to the EAEU countries is mainly represented by the products of the textile industry and agriculture. The largest volumes of goods were supplied to Kazakhstan (50.0 percent) and Russia (48.1 percent).

\* NSC data in FOB prices, including the results of the NSC sample survey of individuals on mutual trade with EAEU countries, excluding NBKR additional estimates on export

<sup>1</sup> in percent to total of each good position.

In the first half of 2020, **imports of goods** in FOB prices decreased by 31.8 percent and amounted to USD 1,528.5 million amid the COVID-19 pandemic and imposed restrictive measures. In value terms, a decrease in supplies was observed almost in all SITC enlarge commodity groups.

In January-June 2020, the volume of imports of goods of the largest SITC group – “manufactured goods classified by material” – decreased by 28.3 percent and totaled USD 380.5 million. There was a decrease in supplies of locksmiths’ ware, safes and hardware (by USD 38.5 million), woven fabrics of man-made textile materials (by USD 36.6 million), and knitted or crocheted fabrics (by USD 24.6 million). At the same time, there was a significant increase in imports of iron and steel (by USD 19.0 million).

\*NSC data in CIF prices

In the reporting period, the total value of imports of the group “machinery and transport equipment” decreased by 41.9 percent and amounted to USD 306.6 million. In the commodity structure of the aforementioned group, the most significant decrease in supplies was observed on the items “electrical apparatus for line telephony or line telegraphy” (by USD 31.4 million) and “machinery for sorting, screening earth, stone, ores; parts thereof” (by USD 14.9 million).

At the same time, there was an increase in imports of such items as “internal combustion piston engines for vehicles” (by USD 8.1 million) and “motor vehicles for the transport of goods and special-purpose motor vehicles” (by USD 2.9 million).

In the first half of 2020, imports of the commodity items in the group “mineral fuel, lubricants and related materials” decreased by 10.7 percent compared to the same period of 2019 and amounted to USD 295.2 million. Petroleum products have the significant share in the commodity structure of the imports in this group. In the reporting period, the value of imports of petroleum products decreased by 11.5 percent and amounted to USD 264.1 million. There was a decrease in the supplies of diesel fuel (by USD 23.0 million), kerosene (by USD 4.2 million), lubricants (by USD 2.4 million), fuel oil (by USD 2.2 million) and other petroleum products (by USD 4.7 million). At the same time, there was an increase in the supplies of gasoline by USD 1.9 million.

\*NSC data in CIF prices

In the reporting year, imports of goods of the group “various manufactured products” decreased by 62.7 percent and amounted to USD 138.9 million. The decrease in value was mainly due to a reduction in imports on the items “footwear” and “articles of apparel and clothing accessories”, the value of supplies of these goods decreased by USD 106.4 million and USD 64.4 million, respectively. Insignificant changes were observed in the supplies value for other commodity items of the group.

\*NSC data in CIF prices

In the reporting period, the share of supplies from the EAEU countries increased and amounted to 53.1 percent **in the geographic structure of import** (in CIF prices). Fuel and energy products, the bulk of which is supplied from the Russian Federation and the Republic of Kazakhstan, prevail in the commodity structure of imports from the EAEU countries. Broad list of consumer goods were supplied from the EAEU countries to the Kyrgyz Republic besides energy carriers.

According to the results of the first half of 2020, the share of non-EAEU significantly decreased compared to the first half of 2019 and constituted 46.9 percent. Such dynamics was mainly due to temporary border closures and suspension of air traffic with China due to the coronavirus outbreak, which caused a reduction in the supplies of consumer goods. Despite this, China remained the largest trading partner in imports of goods (41.3 percent of the total imports from the non-EAEU countries). Significant volumes of goods were supplied also from Uzbekistan (10.2 percent), Turkey (10.0 percent), and the United States (7.6 percent).

### BALANCE OF INTERNATIONAL SERVICES

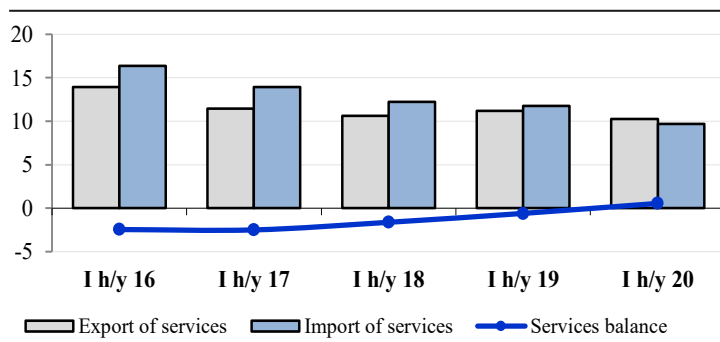

Restrictive measures aimed at restraining the spread of coronavirus infection conditioned a significant decrease in transport services and travels.

**Chart 3. External service and goods trade\***  
(in mln of USD)

\* NSC data, including additional estimates of NBKR and NSC

**Chart 4. Balance of international services**  
(in percent of GDP)

the indicator of the first half of 2019. At the same time, there was decrease in the export of transport services by 40.1 percent (mainly due to the air transport services), and in the import of transport services by 30.5 percent (due to railroad transport services).

The restrictions imposed due to the coronavirus pandemic have also conditioned significant reduction in the flow of tourists. In the reporting period, the total volume of services related to the travels of the citizens from the foreign countries to the Kyrgyz Republic (export of services) decreased by 61.9 percent. The volume of services rendered to the residents during their stay abroad (travel imports) decreased by 67.6 percent. As a result, the balance of the item “travels” was positive in the amount of USD 39.5 million, having decreased by 45.5 percent compared to the first half of 2019.

Net export of business services in the reporting period was formed negative in the amount of USD 11.0 million, having decreased by 22.5 percent. The main factor that affected the change in the balance of business services was a decrease in the volume of mining and consultation services.

According to the results of the first half of 2020, the turnover of international services decreased by 48.4 percent and constituted USD 504.2 million.

According to the results of the first half of 2020, the negative **balance of international services** constituted USD 49.0 million, having increased by 51.3 percent compared to the first half of 2019. At the same time, there was decrease in the import (by 45.2 percent) and export of services (by 51.8 percent).

In the reporting period, **export of services** constituted USD 227.6 million, which corresponded to 22.8 percent of export of goods. **Imports of services** amounted to USD 276.6 million, which constituted 18.1 percent of import of goods.

In the first half of 2020, the main services were travels, as well as transport and business services, which in total constituted 86.2 percent of the turnover of international services.

The balance of transport services in the reporting period was formed negative in the amount of USD 81.2 million, having decreased by 20.2 percent compared to

## INCOME

*Dynamics of the item “income” in the reporting half of 2020 was defined mainly by the change in the volume of direct investment income.*

According to the results of the first half of 2020, the balance of the item “**income**” was found negative in the amount of USD 108.4 million, having decreased by 65.4 percent compared to the same indicator in 2019. This trend was mainly due to the reduction in the volume of the resident companies’ re-invested income paid to the foreign investors. The volume of distributed profit increased by 22.5 percent and amounted to USD 250.1 million. As a result, the balance of the item “income of the non-residents on direct investments” was formed negative in the amount of USD 67.8 million.

The volume of interest payments on previously received loans increased by 2.6 percent and amounted to USD 41.4 million due to interest payments on loans of the public sector. These dynamics, as well as a decrease in incomes on the item “other incomes on other investments” by 43.2 percent, contributed to increasing the deficit of the item “incomes on other investments” by 26.4 percent (up to USD 33.6 million).

The balance of the item “labor remuneration” was formed negative in the amount of USD 7.0 million, having decreased by 6.6 percent, due to a decrease in the total incomes of the non-residents from labor activity in the Kyrgyz Republic.

## TRANSFERS

*The volume of the current transfers’ inflow was below the level of the same period in the previous year due to a decrease in the volume of transfers received by the private sector.*

Positive balance of **current transfers** according to the results of the first half of 2020 constituted USD 906.5 million, having decreased by 14.2 percent. Official and private transfers (other sectors) affected the current transfer account.

In the structure of private transfers, as before, the money transfers of labor migrants provided the main share of all inflows. In the reporting period, reduction in the net inflow of money transfers by 14.5 percent was due to the decrease in the gross inflow and outflow of money transfers by 14.4 percent and 13.7 percent, respectively.

**Table 11. Structure of workers' remittances\***

(mln of USD)

	I h/y 16	I h/y 17	I h/y 18	I h/y 19	I h/y 20
1.1. Workers' remittances	751.0	987.4	1,088.6	1,014.6	867.3
1.1.1. Inflow	915.9	1,182.0	1,329.4	1,264.3	1,082.7
of which:					
Inflows through transfer systems	846.1	1,090.4	1,228.7	1,126.4	977.3
Transfers of individuals through commercial banks <sup>1</sup>	1.2	1.2	1.2	1.2	10.0
Postal populations' remittances	0.3	0.5	0.5	0.4	0.2
Estimates of NBKR <sup>2</sup>	68.3	89.9	99.0	136.2	95.2
1.1.2. Outflow	-164.9	-194.6	-240.8	-249.6	-215.4

\* According to NBKR data including estimates

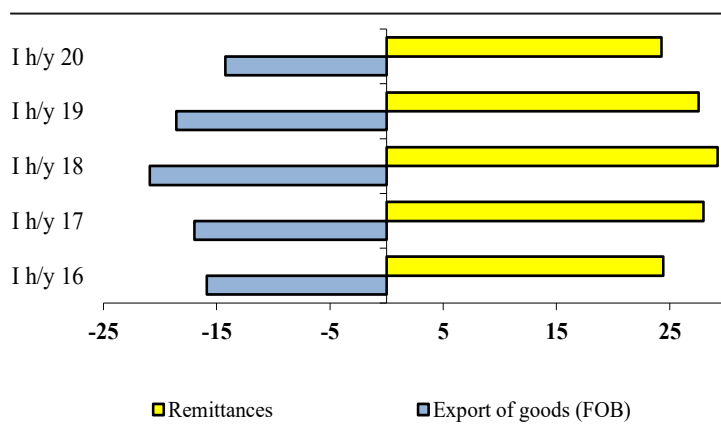

<sup>1</sup> Remittances exceeding USD 3000 are not taken into account; since 2020, transfers by phone number are also taken into account.

<sup>2</sup> Additional estimation coefficient of 10% is used for assessing remittances which migrants bring in cash (from the first quarter of 2019 to the first quarter of 2020 - 15.5%).

Money transfer systems<sup>6</sup> remain the main mode of the labor migrants' remittances to the country. In January-June 2020, the net volume of funds received through money transfer systems constituted USD 977.3 million<sup>7</sup>, having decreased by 13.2 percent compared to the same indicator in the first half of 2019. The volume of remittances transferred from the country decreased by 13.7 percent and constituted USD 213.6 million.

The geographic structure of money transfers remains almost unchanged. According to the results of the reporting period, the main share of money transfers was received from the Russian Federation (97.6 percent). In the structure of transfers sent from the Kyrgyz Republic, the prevailing specific weight also falls on the Russian Federation (97.6 percent).

**Chart 5. Balance of remittances and export**  
(in percent of GDP)

Remittances remain the main source of trade deficit financing. The balance of remittances still covers net export of consumer goods, which, in turn was formed with a negative value of USD 407.1 million.

According to the results of the first half of 2020, the balance of current transfers in the sector of state governance was formed positive in the amount of USD 31.2 million, having increased by 9.0 percent compared to the same period of 2019.

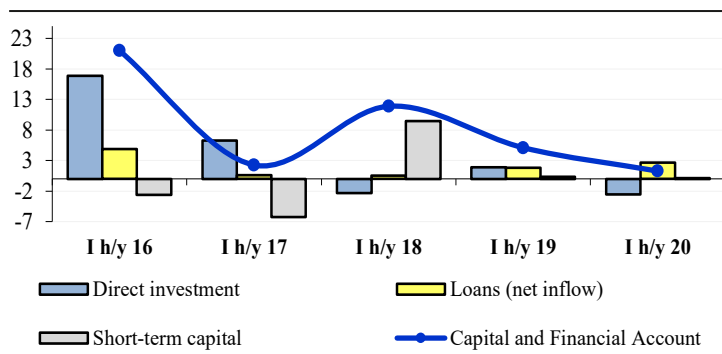

<sup>6</sup> Anelik, Blizko, Contact, Migom, MoneyGram, Western Union, Unistream, Zolotaya Korona, Leader, Bystraya Pochta (Fast Post), Allure and other money transfer systems and remittances via Kyrgyzpochtasy Public Enterprise.

<sup>7</sup> Excluding the NBKR additional estimates.

## CAPITAL AND FINANCIAL ACCOUNT

A negative balance of the capital and financial account was formed due to a reduction in direct investment inflows.

**Chart 6. Capital and Financial Account**  
(in percent of GDP)

According to the results of the first half of 2020, **the capital and financial account** (analytic presentation of the balance of payments) was formed with a negative balance in the amount of USD 194.1 million against the positive value in the amount of USD 256.4 million in the first half of 2019.

The balance of **the capital account** was formed positive in the amount of USD 26.9 million, having decreased by 19.5 percent compared to the first half of 2019.

According to the results of the first half of 2020, **the financial account** was formed with a negative balance in the amount of USD 221.1 million compared to a positive balance in the amount of USD 223.0 million at the end of the first half of 2019. The financial account experienced major impact of the items “direct investments” and “other investments”.

In the reporting period, the balance of the item “direct investments” was formed negative and amounted to USD 402.8 million, meanwhile, in the first half of 2019, the balance on this item was positive in the amount of USD 141.0 million<sup>8</sup>. The volume of financial assets invested in other capital was formed negative in the amount of USD 211.4 million, mainly due to an increase in payments on the principal amount of loans received by direct investment enterprises from the foreign co-owners. Net outflow of financial assets on the share capital and reinvested profit amounted to USD 9.4 million and USD 183.7 million, respectively.

According to the results of the reporting period, the balance on the item “other investments” was formed positive in the amount of USD 166.1 million mainly due to an increase in liabilities of the residents.

According to the results of the first half of 2020, the liabilities to the non-residents increased by USD 209.2 million. In the reporting period, the net inflow of loans to the public and private sectors amounted to USD 154.2 million. At the same time, the net inflow of funds in the amount of USD 27.7 million was observed on loans to the public sector (in the first half of 2019, the indicator was formed negative in the amount of USD 24.9 million) due to the excess of loans received by the public sector (USD 121.4 million) over payments on the principal amount of debt (USD 93.7 million)<sup>9</sup>.

In the first half of 2020, the volume of loans received by the private sector increased by 31.7 percent compared to the same period of 2019 and amounted to USD 338.5 million. The volume of payments on the principal amount of the private sector debt increased by 32.7 percent (up to USD 212.1 million). As a result, the net volume of loans to the private sector was formed with a positive balance in the amount of USD 126.5 million.

In the reporting period, the liabilities of the commercial banks in the form of cash and deposits increased by USD 8.8 million.

In the reporting period, the volume of accounts payable of the resident enterprises decreased by USD 49.2 million. In general, the prevailing share in the total accounts payable fell on the enterprises of the

<sup>8</sup> Including the NBKR estimates.

<sup>9</sup> Excluding the IMF loans. The funds allocated by the IMF under the Rapid Credit Facility (RCF) and the Rapid Financing Instrument (RFI) in June 2020 in accordance with the balance of payments methodology are reflected in the analytical presentation of the balance of payments (Table 12) in the “below the line” items. In the first half of 2020, the net inflow of loans extended by the IMF amounted to USD 230.9 million.

wholesale and retail trade, processing industry, mining, information and communication to make more than 80.0 percent of the total amount of debt.

In the first half of 2020, the foreign assets of the residents increased by USD 43.0 million. The increase in the volume of the commercial banks' assets in the form of cash and deposits on the foreign accounts (by USD 69.5 million) and the volume of residents' funds placed on accounts with foreign banks (by USD 14.0 million) had the significant impact on the aforementioned dynamics. The volume of non-resident enterprises' accounts receivable decreased by USD 35.7 million<sup>10</sup>. As of the end of the first half of 2020, the prevailing volume of accounts receivable fell on the enterprises that are engaged in the processing industry, professional, scientific and technical activity, as well as the enterprises of the wholesale and retail trade.

According to the results of the first half of 2020, the overall net balance of payments was formed positive in the amount of USD 33.3 million.

The balance of the item "errors and omissions", taking into account the additional estimates of the National Bank, was formed positive in the amount of USD 8.7 million. The volume of international gross reserves at the end of the first half of 2020 amounted to USD 2,641.2 million, which covers 5.8 months<sup>11</sup> of the future import of goods and services.

---

<sup>10</sup> Including the NBKR additional estimates.

<sup>11</sup> For reference: the volume of reserve assets covers 5.2 months of the future import of goods and services.

### Transfer to methodology according to the 6<sup>th</sup> Edition of the Balance of Payments and International Investment Position Manual

Currently, the balance of payments statistic is compiled by the National Bank of the Kyrgyz Republic in accordance with the requirements of the International Monetary Fund's Balance of Payments Manual, the fifth edition (hereinafter referred to as the BPM5). However, in order to provide compliance of the external sector statistics methodology with the new international standards, the National Bank takes measures on compiling the balance of payments statistics based on the IMF's new methodology – the Balance of Payments Manual, the sixth edition (hereinafter referred to as the BPM6).

This box provides the users with balance of payments of the Kyrgyz Republic (analytical form), as well as international investment position of the Kyrgyz Republic compiled based on the BPM6 methodology.

Given that the BPM6 has high degree of continuity with the methodology of the BPM5, the balance of payments accounts changed as some items of the balance of payments were regrouped in accordance with the BPM6.

The main changes in the accounting system for transactions in the BPM6 as compared to the BPM5 are given in Table 1.

**Table 1. Transactions Recorded in the Balance of Payments**

		BPM5		BPM6	
Basic items		1. Current account - Goods and services - Income - Current transfers  2. Capital and financial account - Capital account - Financial account		1. Current account - Good and services - Primary income - Secondary income  2. Capital account  3. Financial account	
		<i>Credit</i>	<i>Debit</i>	<i>Credit</i>	<i>Debit</i>
Current and capital account	Recording of transactions in entries	Export of goods and services, income receivable, transfers and disposal of non-production non-financial assets	Import of goods and services, income payable, transfers and acquisition of non-financial assets	Export of goods and services, primary income receivable, secondary income receivable and disposal of non-production non-financial assets	Import of goods and services, primary income payable, secondary income payable and acquisition of non-production non-financial assets
	Use of signs in entries	Credit entries are recorded with a plus sign (+)	Debit entries are recorded with a minus (-)	Credit entries are recorded with a plus sign (+)	Debit entries are recorded with a plus sign (+)
	Balance calculation	Final balance = credit + debit		Final balance = credit - debit	

Financial account	BPM5		BPM6	
	Inflow	Outflow	Net acquisition of financial assets	Net incurrence of liabilities
Recording of transactions in entries	Decrease in assets, increase in liabilities	Increase in assets, decrease in liabilities	Acquisition of assets less decrease in assets (net change of financial assets)	Incurrence of liabilities less decrease in liabilities (net change of financial liabilities)
Use of sign in entries	Assets: minus sign (-) -increase, plus sign (+) -decrease Liabilities: plus sign (+) -increase, minus sign (-) -decrease		Assets: plus sign (+) -increase, minus sign (-) -decrease Liabilities: plus sign (+) -increase, minus sign (-) -decrease	
Balance calculation	Final balance of the financial account = change in assets + change in liabilities		Net lending (+)/net borrowing (-) = change in assets – change on liabilities	

### List of Amendments in Accounts of the Balance of Payments of the Kyrgyz Republic according to the BPM6 Methodology

#### Goods

According to the BPM6 methodological requirements, the item “Goods” underwent significant changes, which affected the form of this account’s presentation, regrouping of items and differentiation of individual goods due to their special role in the financial markets. Thus, the following components are recommended to be reflected in the item “Goods”: *export/import of goods according the balance of payments methodology, net exports of goods under merchanting, non-monetary gold.*

In adapting the balance of goods of the balance of payments of the Kyrgyz Republic with the requirements of the BPM6, the following amendments were made:

- export/import of goods and non-monetary gold are introduced as the main components;
- re-export is defined separately as an additional item in the export of goods;
- goods procured in ports by carriers are included in the item of export/import of goods, meanwhile, according to the BPM5 such goods were defined as a separate item under goods;
- migrant’s personal effects are not included in the item of export/import of goods and are not reflected in any other balance of payments accounts, as according to a new interpretation, this concept is not classified as an operation;
- goods acquired to be processed, goods sent abroad for repair are excluded from the item “Goods”, because there is no transfer of ownership for the goods between a resident and a non-resident in accordance with the BPM6 methodology

#### Services

Significant amendments were not introduced in the general concept of accounting the international services in the balance of payments. The main adjustments according to the new BPM6 include clarification in the procedure and methodology of accounting for several indicators, as well as rearrangement or renaming of the sections and particular items on services account to bring the services account in line with the conceptual framework of the System of National Accounts (SNA 2008) and the Manual on Statistics of International Trade in Services (UN, 2011).

The following adjustments on the service account of the balance of payments of the Kyrgyz Republic were made in order to bring it in line with the BPM6 methodology:

- a new item “Manufacturing services on physical inputs owned by others”, which includes only the fee charged by an entity that does not own the goods and engaged in the processing of material resources, was introduced in the section of services;
- postal and courier services (previously recorded in the item “Communication services”) are included in the item “Transport services”;
- the item “Construction services” was renamed in “Construction”, which mainly reflects the fact that the construction works, as well as the goods and services purchased by a non-resident enterprise that is building in the country where construction activities are carried out, are accounted in this item. The construction is divided into “construction abroad” and “construction in the Kyrgyz Republic”;
- the item “Royalties and license payments” (previously reflected in the item “Business services”), according to the BPM6 methodology was renamed and represents a separate item entitled “Charges for the use of intellectual property, not classified in other categories”;
- a new item, that combines telecommunication services (previously recorded in the item “Communication services”) with computer and information services, which previously represented a separate item, was introduced.

### **Primary income**

To ensure consistency between the accounts of foreign economic activity and the national accounts, the item “Income” and its components are brought into line with the item “Primary income account” of the SNA 2008. A detailed breakdown of the investment income is introduced; this breakdown allows linking it with the functional and instrumental classifications of the financial instruments. At the same time, generally, the indicators of the item remain comparable with the data compiled using the BPM5 methodology.

### **Secondary income**

In general, the conceptual framework for accounting current transfers in the balance of payments did not change significantly and maintained continuity with the BPM5 methodology. According to the BPM6 methodological requirements, the item “Current transfers” was renamed into “Secondary income”. More detailed classification of the types of current transfers is provided; certain definitions and procedures of accounting for particular sub- items of the secondary income account are clarified and distinguished.

### **Financial account**

Generally, the basic principles for compiling a financial account according to the BPM6 did not change. The new methodology clarifies the concepts of direct investment, which were brought in line with the fourth edition of the “OECD Benchmark Definition of Foreign Direct Investment”. In particular, the definitions of control and influence, the recording methods of the investment chains and fellow enterprises, as well as presentation of assets and liabilities on the gross basis in accordance with the principle of direction were revised. Functional and instrumental categories of the financial account were expanded and supplemented.

In the course of bringing in compliance with the BPM6 requirements, the following amendments were introduced into the financial account of the balance of payments of the Kyrgyz Republic (except for the amendments related to the column names and the interpretation of signs related to the financial account reflected in Table 1):

- name of the item “Reinvested instruments” in direct investments, according to the BPM6 methodology, was renamed to “Reinvestment of earnings”, in order to separate it from the corresponding item on the primary income account;
- credits provided directly to the suppliers of goods and services, as well as advances and prepayments to the customer for goods and services accounted in the item “Accounts receivable

and payable” according to the BPM5, are included in the item “Trade credit and advances”. Moreover, other debts that are not classified as trade credits and advances or other instruments of the financial account are included in the item “other accounts payable/receivable”,

- other equity instruments not classified as direct investments are included in “other investments” as a separate item;
- liabilities in arrears is still reflected in the original instrument until liquidation of obligation, meanwhile, according to the BPM5, the old liability was assumed to have been repaid and a new one was created instead and that such contingent transaction was reflected in the item “Other assets/other liabilities”.

In addition to the amendments mentioned above, the National Bank will continue to work on further clarifying and improving the statistical recording of the balance of payments accounts in accordance with the BPM6 methodological requirements.

Comment:

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated.

Short-term investment are investments in financial assets, with maturity of one year or less than one year, pursuant to contract, or paid as short notice.

**Table II.1. Sources of Information Used by the National Bank for Compilation of the Balance of Payments of the Kyrgyz Republic**

Items of the Balance of Payments	Sources of information	Contents of information
<b>Current account</b>		
<b>Commodities</b>		
Export of goods (F.O.B.)		
export	NSC	
commodities purchased in ports	NSC	
non-monetary gold	NSC	
Import of goods (F.O.B.)		
import (C.I.F.)	NSC	
value adjustment	NSC	NSC estimate of the share of transport and insurance services in import at C.I.F. prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises according to form 1-services
<b>Services</b>		
Transportation services	NSC, CB	
Travel	NSC, CB	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	NSC	
Construction	CB	
Insurance and pension services	CB	
Financial services	CB	
Computer and information services	CB	
Government services	MFA, CB, NBKR	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR
Other business services	CB	
including technical assistance	IMF, MF	the estimated data
Other services	NSC, CB	
<b>Income</b>		
Employee compensation	NSC, CB, enterprises	
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	
Other investment income		
Interest on loans		
Monetary authorities	NBKR	
General government	MF, NBKR	
Banks	CB	
Other sectors	NSC	
Other investment income	NBKR, CB	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB from abroad assets and liabilities

**Table II.1. (continued)**

Items of the Balance of Payments	Sources of information	Contents of information
<b>Current transfers</b>		
Humanitarian aid	NSC, enterprises	the estimated data
Technical assistance	IMF	
Other grants	NBKR	
Contributions to international organizations	NBKR	
Workers' remittances	CB, NSC, NBKR's estimations	
<b>Current and financial account</b>		
<b>Capital transfers</b>		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Debt forgiveness	Enterprises, MF	
<b>Direct investment</b>		
Abroad	NSC	data on direct investment collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment into the banking sector; data of some large joint ventures
To the Kyrgyz Republic	NSC, CB	
<b>Portfolio investment</b>		
Promissory notes	NSC, NBKR, CB, FMSRS KR	
<b>Financial derivative</b>		
<b>Other investment</b>		
Assets		
Money in cash and deposits		
Banks	CB	
Other sectors	NSC	
Trade loans	NSC	
Other assets		
Monetary authorities	NBKR	
General government	MF	
Liabilities		
Money in cash and deposits		
Banks	CB	
Trade loans	NSC	
Loans		
Monetary authorities	NBKR	data on IMF loans
General government	MF, NBKR	data on loans received/repaid by the public sector or under guarantee of the Government
Banks	CB	data from banking statistics on loans received by commercial banks
Other sectors	NSC	data on loans received/repaid under no guarantee of the Government
Overdue debts	MF, CB, NSC	
Reserve assets	NBKR
